My Summer Holiday

In this summer holiday, my parents bring me to the beach. This is my first time to go to the beach. I am so excited.

First, we prepare the things to the beach, like the swimming suits, swimming rings, buckets and shovels. They are so heavy. After that, we go to the beach by car.

When we arrive, there is a big beach and smooth sand. There are a lot of people on the beach. Next, we go swimming. I see some beautiful fish swimming with us. Later, we feel very hungry. I buy a vanilla ice-cream. It is so tasty. Then, we build a big sandcastle. We also build a big pond next to the sandcastle and pick up some shining shells to decorate.

In the end, the sun goes down then we need to leave. What a wonderful day!

My Summer Holiday

This summer holiday, I went to many interesting places and played many interesting games, such as badminton, skipping. I also went to Hong Kong Ocean Park. But, I think the most interesting thing to do is the handicraft class.

In the handicraft class, I chose to design a pencil case. The teacher gave me an empty pencil case. I chose some decorations that I liked such as a big crown, some diamonds, some butterflies, two flowers and different colours of glitter.

First, I drew two semicircles in the middle of the pencil case with yellow glitter. Then, I use purple, blue, pink and green glitter to draw two rainbows, which covers the pencil case. Then, I put the crown in the middle, and then glued the butterflies at the four corners. Finally, I put the rest of the decorations in different positions. My pencil case was done.

This is the most interesting summer holiday.

The page has a vibrant, cartoonish background. At the top left, there are orange seashells and a red starfish on a sandy beach. The top right features a large, bright yellow sun with rays over a blue sky. On the right side, a purple jellyfish with long, flowing tentacles is depicted. The bottom left shows blue waves with white foam crashing onto a sandy shore. The bottom right corner contains a small island with three green palm trees. The central text is contained within a white rectangular area.

My Summer Holiday

Last weekend, I visited the TeamLab at the Venetian Hotel in Macau.
Inside it, I can see many different colours of flowers on the floor and wall.

In a room, I can draw some pictures and project them onto the wall.

In another room, I played slide and trampoline. It was so much fun!

In the end, I watched a light show. It was amazing. I love the TeamLab very much!

My Summer Holiday

In this summer holiday, I went to Osaka, Japan for five days, from 5th to 9th August. It was really an unforgettable memory because this is my first time to Japan.

In this trip, we first went to Rinku Premium Outlet for shopping. I bought a lot of clothes and shoes. Then, we went to McDonald's to have dinner. The McDonald's in Japan is really tastier than that in Hong Kong. Its French fries are very crispy. The burgers and chicken nuggets are very fragrant.

After that, we went to NIFREL, an interactive aqua zoo. There were many fishes, turtles, animals such as white tigers, penguins and crocodiles. I took many pictures there. What a pretty wonderful spot in the trip.

Also, we have been to Shinsaibashi. I've eaten a lot of local food such as Takoyaki, Okonomiyaki and sushi. They were all mouth-watering. I enjoyed the food very much.

This trip is really wonderful. I hope to travel to Japan again very soon.

My Summer Holiday

Today, my parents take me to Shenzhen. We have a great time shopping, playing and dining there.

First, my aunt went to some cosmetics stores because she wants to buy some lotion, hand cream and lipsticks. When my aunt is shopping, my mum brings me to the toy shop 'Top Toy' nearby, but I can't find anything I like.

Then, we go to a Western seafood restaurant because my dad is hungry. We have some pasta and some lobster dishes. We find them so yummy.

After that, we head to the Party Day indoor playground. We enter the Square Battle and Akada. In Square Battle, we play it as two team and get as high points as we can. My team wins.

At the end of the day, we return to the hotel to take a rest.
