

### My Easter Holiday

At Easter holiday, I went to an interesting farmland in Zhuhai. There were a lot of animals, such as horses, rabbits, parrots and capybaras. The most exciting activity was riding the horse.

First, I listened to the guide. He told me some safety guidelines. After the briefing, I got on the saddle, and then the horse started running. The horse was very cute and kind. I was very excited. After five minutes, the horse reached the end.

It was a good experience because I learnt how to ride the horse. It was so unforgettable that I will recommend this farmland to my classmates.

My Easter Holiday

This Easter, my family and I planned to go to Zhuhai for three days. As soon as the school holiday started, I tried to finish most of my homework, so I could travel around happily.

In Zhuhai, we went shopping and enjoyed delicious food everywhere. In addition to wandering around the malls, we played in the amusement park as well. I joined a shooting game and was rewarded a small gift.

We also tried the local seafood and enjoyed two delicious buffets. I tasted a variety of oysters, crabs and lobsters, which were cooked in different ways, and some tasty local pastries.

Although this trip was only a few days, I felt very relaxed and happy. I tell you a secret, my parents have already started preparing for the next trip! Wow! What a good news!

### My Easter Holiday

I love this year's Easter Holiday! This Easter Holiday, I went to Guangzhou East with my family and my friends.

On the high-speed railway, I ate sushi and chips while playing Poker with my friends. When I arrived at Guangzhou East, I went to the night market, I ate lots of food. At the hotel, I watched Ne Zha, and it was very cool.

The next day, I went to a glass-making shop, I made a beautiful goldfish. Next, I went to a badge-making shop. I made a butterfly badge. At night, I went to sing and it was fun.

On the third day, I went to a Chinese museum. The museum showed us the giant house of a king, which was huge! For dinner, I ate some wagyu and it was delicious! Later, I ate mini lobsters while watching Kung Fu Panda.

On the fourth day, I went to a special shopping center. I first went to a snowy place called Antarctic Adventure. It was fun playing in the snow. Suddenly, the staff announced that there was a tug-of-war competition and I joined the competition. The other team was full of strong children, but I was still confident that I would win because I had an idea. When my team was losing, I told them to take three steps up, and then the other team fell down. We kept pulling and won. Later, my mom took me to see real capybaras, and they were so cool.

On the last day, I took my luggage and ate my last meal at Guangzhou. On the way back home, I saw my classmate. On the train, I had to sit on my mom's knees.

This trip was very fun, I bought a lot of souvenirs back home. What about you?

### My Easter Holiday

I had a trip on 17<sup>th</sup> April, 2025. Before the trip, I was very excited. I went there with my aunt and she drove a private car. In this trip, we went to Zhuhai.

First, I went to Chimelong Ocean Kingdom. There were a lot of places waiting me to go. I went to look at some animals first, such as penguins and polar bears. Also, I went to the funniest ship ever. First, the ship went down, and then it splashed a lot of water, so we all got wet.

The second day, we ate balance-diet lunch. Then, we went to a big park. I played a lot of games, such as the slide, the swing and the see-saw.

At last, we all went home happily. I think this is an unforgettable trip in my life.

Easter Holiday

During the Easter holiday, I went to Shenzhen with my mother and my friend. The first day, we went to the Window of the World. There were a lot of exhibits. It has about one hundred and thirty reproductions of some of the most famous tourist attractions in the world. I took a lot of photos and rode the sky tour bus. It was very exciting.

The next day, we went to Splendid China Folk Village. There were many famous Chinese buildings, such as a scaled down model of the Great Wall. We enjoyed a carriage ride through the park.

The last day, we took the high-speed rail back to Hong Kong. It was my first time taking it, and I felt extremely excited.

I enjoy playing in Shenzhen with my mother and my friend. I wish I can go there again next holiday.

### My Easter Holiday

At Easter holiday, I was very excited because I went to many places.

The first day of the Easter holiday, my family and I went to a hotel to have dinner buffet. I ate a lot of delicious food, such as ice-cream, lobsters, oysters and steaks. We enjoyed the dinner.

On the next day, daddy brought me to Hung Hom Station for visiting "History of MTR Exhibition". In the exhibition, I learned more about the history of MTR, such as their nick names like "Yellow Head" and "MLR", that have become fond recollections. After the exhibition, I got a souvenir. It is a "Classic Railway Ticket". I was very excited when I got it. Also, I went to visit Airport Express platform but not going to the airport. I created a lucky sticker from the "Airport Express Easter Sticker Machine". I was very happy about it.

On the final day of Easter Holiday, my family watched the "Minecraft Movie".

What a wonderful holiday!

### My Easter Holiday

I go to fencing classes every weekend, and sometimes I have UIO Fencing Foil competitions on Saturday or Sunday.

This weekend, I had a UIO Fencing Foil competition to get into the first four places. The competitors are very smart and good at fencing. I was only able to get a few points in the pool and ranked number eight. I cried and felt so upset. I thought that my strategy to simple direct riposte was not appropriate because the competitors were experienced and strong. I learned that I need to calm myself down and use defensive counterattack to gain the points because that is my strength.

There are lots of fencing techniques I need to practise. I will master my footwork and blade work and develop good distance control in the coming summer vacation. Hope I can improve after that.
