

### Sports Day

Last week, we had Sports Day at Tseung Kwan O Sports Ground. Grey clouds pressed low over the running tracks. It rained on and off. Nevertheless, we were all excited. The athletes stretched their arms and legs as a warm-up. I didn't join any games but stayed at the auditorium to cheer for Red House. 'On your mark, get set, go!' The race began after the teacher blew the horn. All runners ran as fast as they could. We cheered as loud as we could.

The Parent-child relay was the spotlight of the day. Accidentally, some parents slipped on the wet track and fell. Luckily, they only got minor injury. Although Red House didn't win the Grand Champion, we all burst into loud applause.

Closing words from the Hong Kong Fencing Ace Cheung Siu Lun encouraged us to pay great effort to achieve goals. I love Sports Day because it is not just about sports but a lesson about fighting for challenges.

### My visit to Zhuhai Aerospace Land

How much do you know about space? Last week, I visited Zhuhai Aerospace Land.

The exam ended last Wednesday and I went to the Zhuhai Aerospace Land. It was enormous and a lot of rockets were there. I was terribly excited and quickly looked for something to play.

I decided to go to the plane simulation first. There were a lot of small planes and we could get into it! After around ten minutes of waiting, we could finally play. After we went into the cockpit, I was amazed by all the controls and instruments. I felt like that I was a real pilot, and I flew the plane everywhere. It was extremely fun!

After that, we went to look at the huge rockets. They were so tall that they were about ten floors tall! I took lots of pictures of them. Finally, I bought some exquisite souvenirs.

Zhuhai Aerospace is really fun! I really look forward to paying another visit to it.

Last week was exam week. It was a hard week but it was finally over.

Last Sunday, I did revision for three hours. And after I finished doing the revision, we went happily to the park. On the first day of exam, I felt nervous and I answered the questions carefully. But luckily, this hard and busy week was over. Now, I become relaxed and I can play video games happily!

From this exam week, I've learnt that we can't give up. We need to work hard if we want to get rewards. I'll study hard for the next examinations.

### How to be a nice person

Being a nice person is very important, because it can help you a lot. First being a nice person can help you make more friends. Nobody dislikes having a nice friend.

Second, to practice being a nice person, you need to be helpful. For example, you can help your friends to carry their water bottles after PE lessons or after doing sports when they are tired. Also, you may help your mum to take away the dishes after dinner. These examples are very easy to do but they can make others feel better to be around you. I think they will be more willing to become your friend and play with you.

To sum up, I want to tell you that being a nice person is not only a good way to help you make more friends, but also if you are a nice person who is helpful and kind. When you face problems, others will you to solve them.

Being a nice person is very important in our lives.

Today, my parents and I went to an animal park. In the morning, we travelled around the park by train. We saw a zebra getting in the way of cars. A lot of giraffes ate on a very high plate. Then, we saw a lot of cute koalas. The breeder told us, koalas' brains are very simple. it means they are very stupid.

They can't think deeply. we had a good time. What an unforgettable experience.

From the journey, we have learnt a lot of things about animals. What a meaning day!

### A Dream

Last night, I am dreaming an interesting story when I was sleeping.

I was on the bed. Then, I saw some pokemon ball on my table. I felt surprised. Then I went outside, I saw a lot of pokemon in my garden. I love them so much.

I went to catch pokemon. I saw Pikachu! I used my pokemon ball to catch it. I successfully captured Pikachu.

Suddenly, I saw Rocket team attacked me. They were strong. We were scared, but Pikachu tried to use thunder. Rocket team flew far away.

At last, I woke up, it was a dream!

### My best friend

My best friend is Primus Lee. He is a new friend for me. Primus is very strong and sporty. He is tall and likes to wear sporty clothes. He is very brave and when we face difficulties, he is fearless and always makes jokes to let us laugh.

I like to play badminton with him. We have joined school badminton team and play together.

He is my best friend because we have the same interests we also help each other with study too. That's why he is important to me.
