

HAPPY EASTER

4S LAM YAN TONG

An Unforgettable Thing in the Holiday

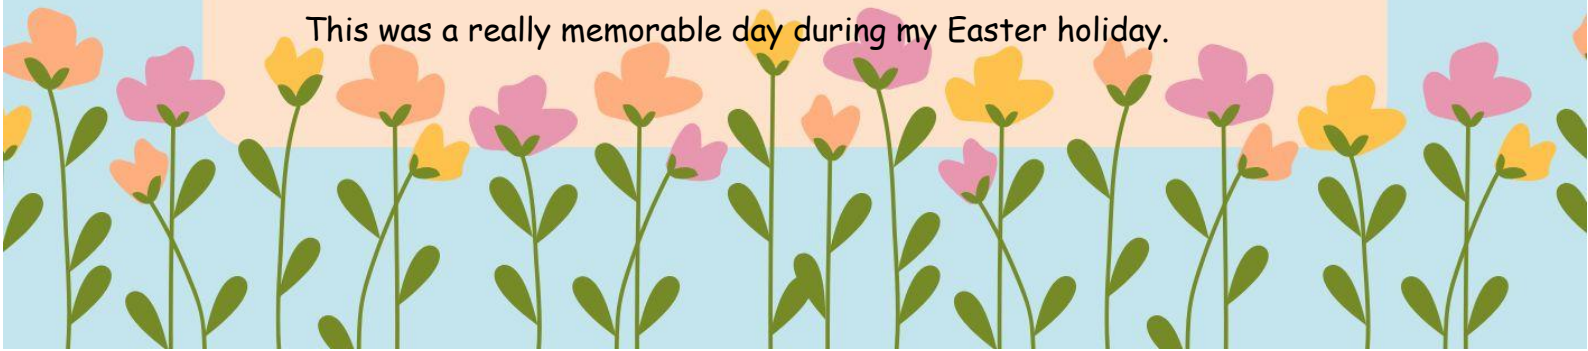

Do you know what day it was last week? It was Easter, and we had the Easter holiday! I was really happy.

During the holiday, my family took me to the Hong Kong Ocean Park. I was amazed because it was my first time there, and going to the Ocean Park had always been my dream.

It was an amazing day. Everything was perfect, but something happened. While we were having fun, we felt hungry. And I saw some snacks on sale, so I ran as fast as I could to the snack shop. However, I got lost because I ran too quickly, and my parents didn't know where I was. At the moment, I told myself to calm down. Then I ran to the office because I knew there were staff members who could help me. In the end, I found my family and I was extremely happy.

After this experience, I learned that we shouldn't run off on our own without asking our parents. They would be worried. Also, when we encounter problems, we need to stay calm and find a way to solve them.

This was a really memorable day during my Easter holiday.

HAPPY EASTER

4S WOO YAT FUNG

My Easter Holiday

On the 21st of April, 2025, I wen to Go Park in Sai Sha with my friends and family.

When we arrived there at noon, first we waked from the entrance to the "Playground" on the second floor. We climbed up and down on the rope net and played on a yellow slide.

After that, we had lunch at the "Sports Bistro". The food there was very delicious. Then we took part in an egg hunt mission. We had to collect a stamp from each of the fourteen participating shops or restaurants in the shopping mall. In the end, we found all the places, so we got presents.

At last, we went to the "Adventure land". We saw a very cute and tall bear, and there were so many people around it.

It was an unforgettable day, because it was my first time vising Sai Sha. Also, I heard so much about the Go Park and I wanted to go there for a while. I was over the moon to have fun with my friends there finally.

HAPPY EASTER

4S YU YUET YAN

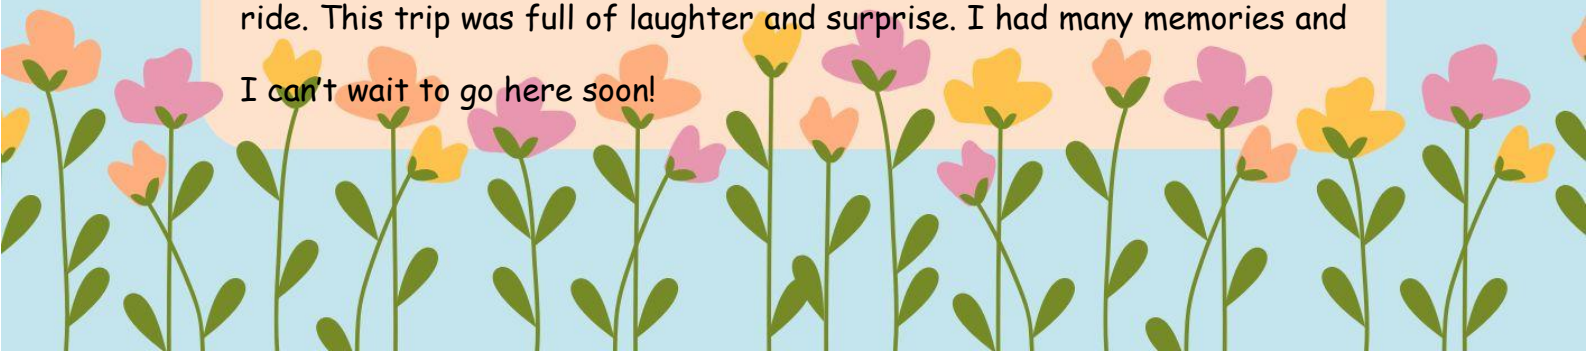

My Easter Holiday

During the Easter holiday, I went along with my dad, mom and my elder sister to Shen Zhen Zoo.

The most memorable activity in the zoo was feeding the giraffes. The zookeeper gave us some banyan leaves. When I held on the banyan leaves, its rough and black tongue stretched out. Then, it munched on the leaves and lots of green saliva dripped down from its mouth! "Ewww! It's like warm bubble gum!" I yelled, shaking my hand. It really freaked me out, but it was super fun.

Another great moment was the pony ride! I chose the tallest and strongest among the three of them. When I rode on the pony, I felt a special connection with my pony. It walked steadily to ensure me to have a smooth and safe ride. Suddenly, near the end, the pony sped up into a little run, I held on tight and laugh until I saw my parents. I thought it was so awesome and excited!

I felt unforgettable for this adventure from slobbery giraffe to pony ride. This trip was full of laughter and surprise. I had many memories and I can't wait to go here soon!

HAPPY EASTER

4S LO HAU YU

My Easter Holiday

This Easter holiday I had a lot of activities. One of the activities was held in Hong Kong Science Museum. I joined an event of Croucher Science week, and it was full of fun.

Last Sunday, I woke up very early in the morning and got ready to go to the science museum to watch the show. At the beginning, I didn't have much expectation on the show, because science was not my favourite subject.

The explorer was from England. He explained how people applied science in their daily lives. He also did some experiments to let us understand more. I have even been called out to do an experiment with the explorer, which made me very happy and excited. This was my first time to do demo on the stage.

This was my first time to join the live event of Croucher science week. Even though science is not easy, I think science is interesting, because the explorer used an interesting way to teach us science. I hope I can watch more shows again in the future.

4S LEUNG MAN HEI TYRUS

My Easter Holiday

Last Thursday was the first day of Easter holiday. It was the first time my family drove our car to visit my grandparents in Shunde, China. It took us about forty-five minutes to arrive at the Hong Kong Customs near Hong Kong Airport. We passed it and drove on the Hong Kong - Zhuhai - Macao Bridge. There were two islands called "The White Dolphin Island" and "The Blue Dolphin Island". I could see lots of big ships in the sea. After we passed the Zhuhai border, we drove on the Guangzhu Highway to go to Shunde. Most buildings were short and I could even see the mountains far away. I fell asleep and arrived at Shunde about one hour later.

On Sunday night, my aunt arranged a birthday party for me in a restaurant, and we brought a portable piano and violin to play there. After dinner, two people dressed like Super Mario and God of Fortune came in and sang birthday song, and we took a lot of photos. There were a lot of astronaut figures on the cake and I received a lego transformer for my birthday. This was very surprising and I like my present very much.
