My Easter Holiday

I started my Easter holiday on 18th April, 2025. First, I went to church on Easter Sunday.

Then, my family and I travelled to Osaka for a week. What impressed me most was going to Abeno Disaster Prevention Learning Center. I experienced seismic intensity 7 within 1 minute. I was shocked and scared after this experience.

I hope there won't be any earthquakes around the world.

It was unforgettable experience in this trip.
