

## My family

Family is the most important part of my life. I live with my parents and my younger sister and we share a close and loving bond.

My father is a hardworking and responsible man. He works as a fireman and always encourages me to behave well. Despite his busy schedule, he makes time to play sports with me.

My mother is kind and caring. She loves helping others, both at work and at home. She cooks delicious meals for us and supports in everything I do.

My younger sister is cheerful and playful. Although we sometimes argue, we always make up quickly. She makes me laugh with her funny jokes and I enjoy teaching her with homework or playing games together.

We often spend quality time as a family, such as watching movies, going on trips or simply talking about our days. No matter what happens, I know I can always rely on my family for love and support. I love my family so much.

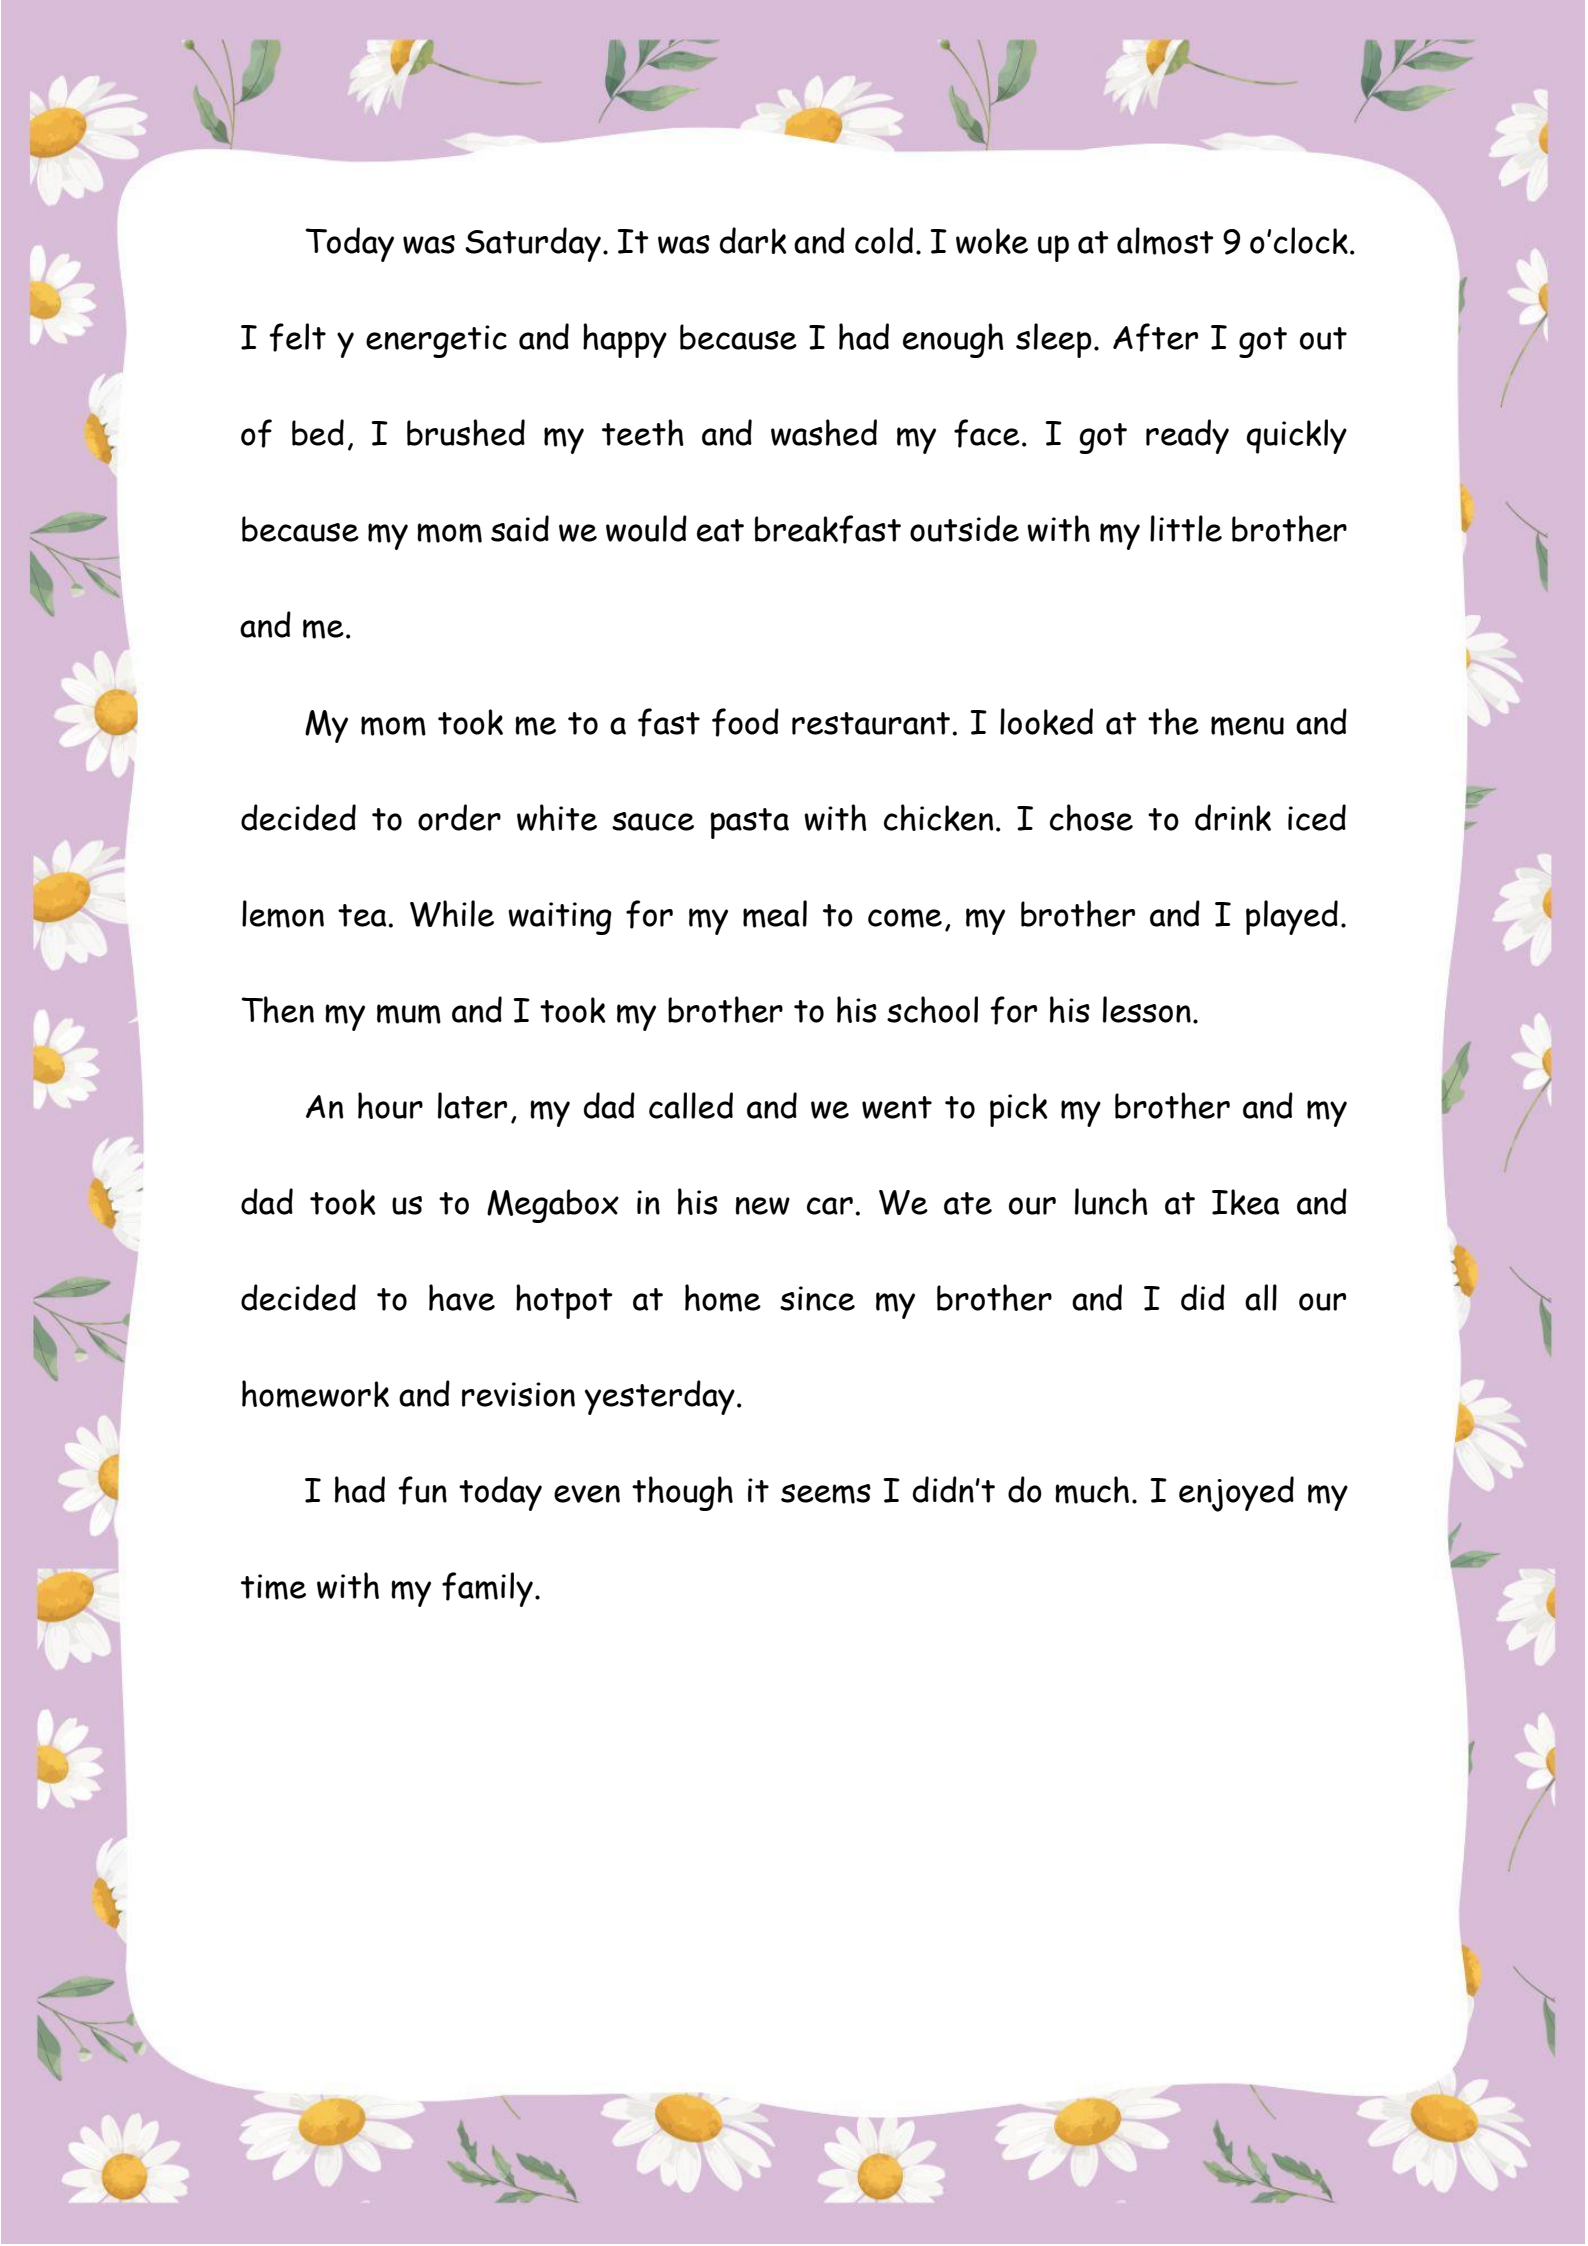

## Watching a film

Today, my mum and I watched a film called 'I have arrived' in Kowloon Tong. The film was good. It was about how we should be good to our parents in everyday life.

When we arrived there, I saw a tall and big building. I went into it and to the lecture hall. There were so many people in the lecture hall. There was a very big screen.

After that, the film ended, there was a person walking onto the stage and asked us questions about the film. If your answer was correct, you would have a prize. I answered a question correctly and got a prize.

At last, I went to the gift shop and bought a souvenir. I felt overjoyed. I had a wonderful day.

Today was Saturday. It was dark and cold. I woke up at almost 9 o'clock. I felt y energetic and happy because I had enough sleep. After I got out of bed, I brushed my teeth and washed my face. I got ready quickly because my mom said we would eat breakfast outside with my little brother and me.

My mom took me to a fast food restaurant. I looked at the menu and decided to order white sauce pasta with chicken. I chose to drink iced lemon tea. While waiting for my meal to come, my brother and I played. Then my mum and I took my brother to his school for his lesson.

An hour later, my dad called and we went to pick my brother and my dad took us to Megabox in his new car. We ate our lunch at Ikea and decided to have hotpot at home since my brother and I did all our homework and revision yesterday.

I had fun today even though it seems I didn't do much. I enjoyed my time with my family.

## My first badminton competition

On 26<sup>th</sup> March, I represented my school in the primary badminton competition which is my first time.

I felt a little nervous in my first match. With the support of my teacher, coach and teammates, I tried to overcome my anxiety and play my best.

Although I lost the game in the end, I got a lot of experience in the process. I also got encouragement from the principal after the competition, and I hope I can do better in the future.

## Station Rail Voyage

Last Sunday, my family and I went to the Station Rail Voyage in Hung Hom. We felt excited.

In the Station Rail Voyage, there were a lot of people inside. There were different MTR trains, such as Yellow Head, KTT and MLR. We took a lot of photos of them.

After we visited it, we bought some souvenirs. I bought two MTR classic tickets. There was a common stored value ticket in 1984 and an adult single journey ticket in 1986. They were meaningful!
