Summer, please stay!

I truly want this summer holiday could go on forever because it's one of the funniest summers I've ever had. This summer, I went to Tokyo, Japan again with my family for four days.

On the first day, we went to Asakusa to try out the street snacks and visit Asakusa Temple. After that, we went to Tokyo Skytree to take pictures and see the view. It is 634 meters tall and view is beautiful from up there. After dinner, we went to our hotel. I found a wonderful surprise there I could see the Tokyo Skytree from my hotel room window!

On the second day, I went to a bird café. It was very big and the birds had a big cage. There were lots of birds, such as parakeets, cockatiels and zebra finches. I was able to hold two parakeets, one of which was very active and tried to make a nest out of my clothes, and another who was very quiet and fell asleep in my hands. I was very thrilled because I love birds. There were also a lot of bird themed desserts. I ordered a pudding with a parakeet face on it and a donut with chocolate dipped on it to make it look like a cockatiel. Not only it was very cute, but delicious!

On the third day, I went to Shinjuku. For lunch, I ate roast beef. I roasted it with rice myself. It was absolutely delicious and I was very full. Then, we explored a claw machine arcade. Unexpectedly, I won a Kirby keychain on the first try. I was very happy.

On the final day, I went to the supermarket and bought presents for my friends. I also tried a candy apple which was very delicious. I bought some chocolate mochi too.

This trip was truly unforgettable. I hope that I can go to Tokyo again soon.

An unforgettable trip

In this summer, my parents surprised me with a trip to UK. I was thrilled and packed my bags quickly, I could not wait to see all the famous places.

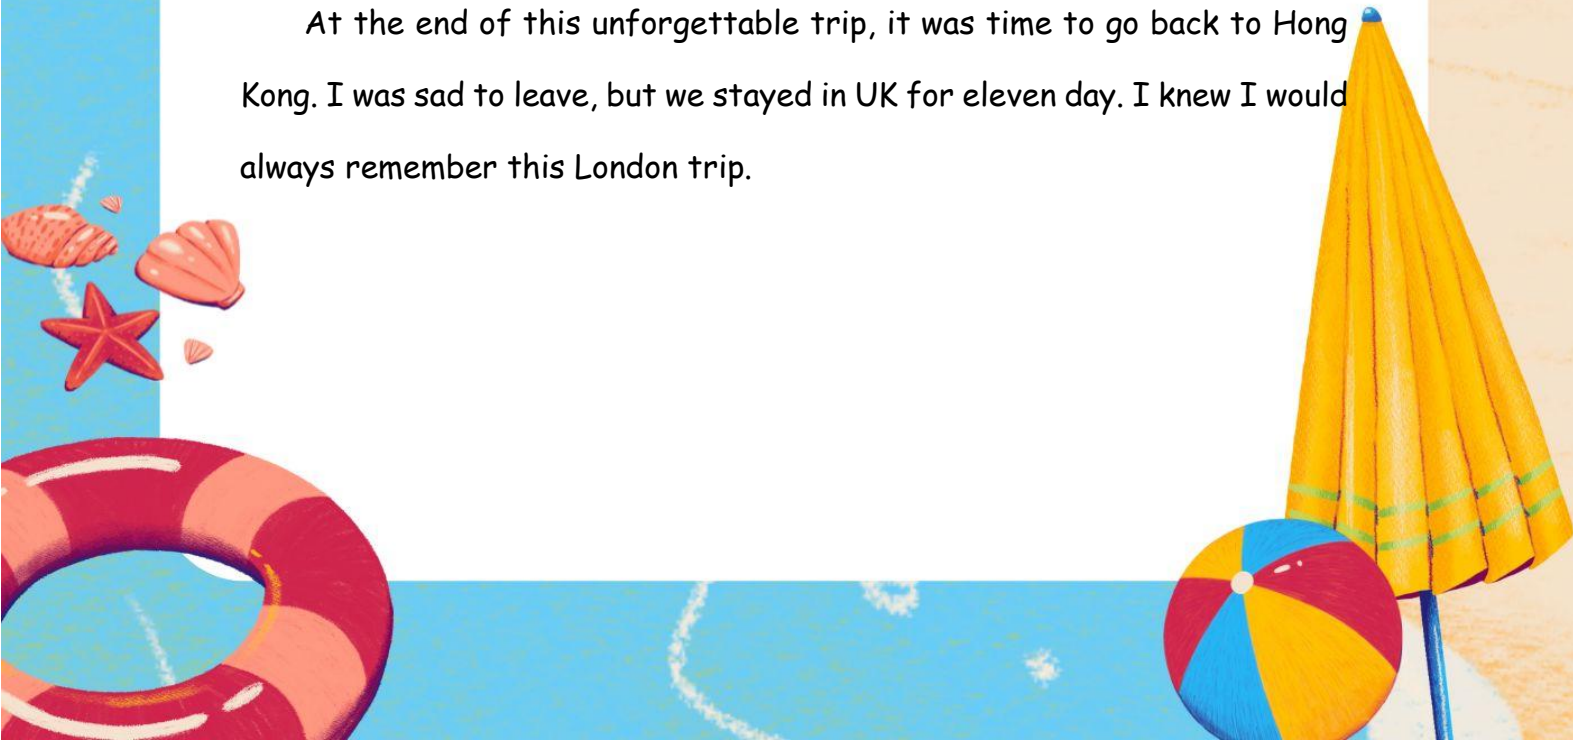

When my family and I arrived at London, we were eager to travel around the city. The first stop was Buckingham Palace. I was excited to see the palace. I took a lot of pictures to show my friends.

After that, I went to the Big Ben. The giant clock tower was even bigger than I thought. I listened to my dad because he was talking the history about the Big Ben. I learned about the fantastic history.

Then, we went to the Tower Bridge. I loved the moments when the boats were passing underneath the bridge. I was busy looking at the beautiful view.

Next, we spent some time in the Natural History Museum. There were a lot of attractions for tourists. I loved the Dinosaur World the most because I like dinosaurs. There were also a lot of dinosaur skeleton displays.

At the end of this unforgettable trip, it was time to go back to Hong Kong. I was sad to leave, but we stayed in UK for eleven days. I knew I would always remember this London trip.

An Unforgettable Experience

In this summer vacation, my family and I went to Tianmen Mountain in Zhang Jia Jie. That's a tall mountain with a beautiful view. I was very amazed.

A cable car sent us up to the bottom of the mountain. We have to go through the Toantian road, which has 999 steps. When I got to the top of it, I was surprised by the view. The mountain was so precipitous that it looks like it has been cut! Then I decided to go to the glass walkway. When I looked down, I was too scared to move! It was too high! Finally, we took the world's longest cable car trail to go back to the city. It took me about 30 minutes.

The view from the Tianmen Mountain is very unforgettable. I'm looking forward to visit it soon.

School event

Yesterday was our school's Halloween Day. My friends and I had a truly great time together.

First, we participated in a dressed up inter-class competition. Everyone in the class had to vote for the person they believed had the best Halloween costume. Many classmates chose the funniest costume. The winner was dressed up as a cockroach. Everyone burst into laughter at her costume.

After that, it was the "Trick-or-Treat" time. We exchanged candies with each other, and I ended up with plenty of candies. I felt gleeful.

At last, we played games that were about Halloween. There were many different kinds of game booths. The games were funny and scary. One of the games, we had to guess what's inside the box. I felt frightened when Mr. James was making some scary noises to scare us!

Overall, it was a day filled with laughter and surprises!

An unforgettable memory in Summer Camp

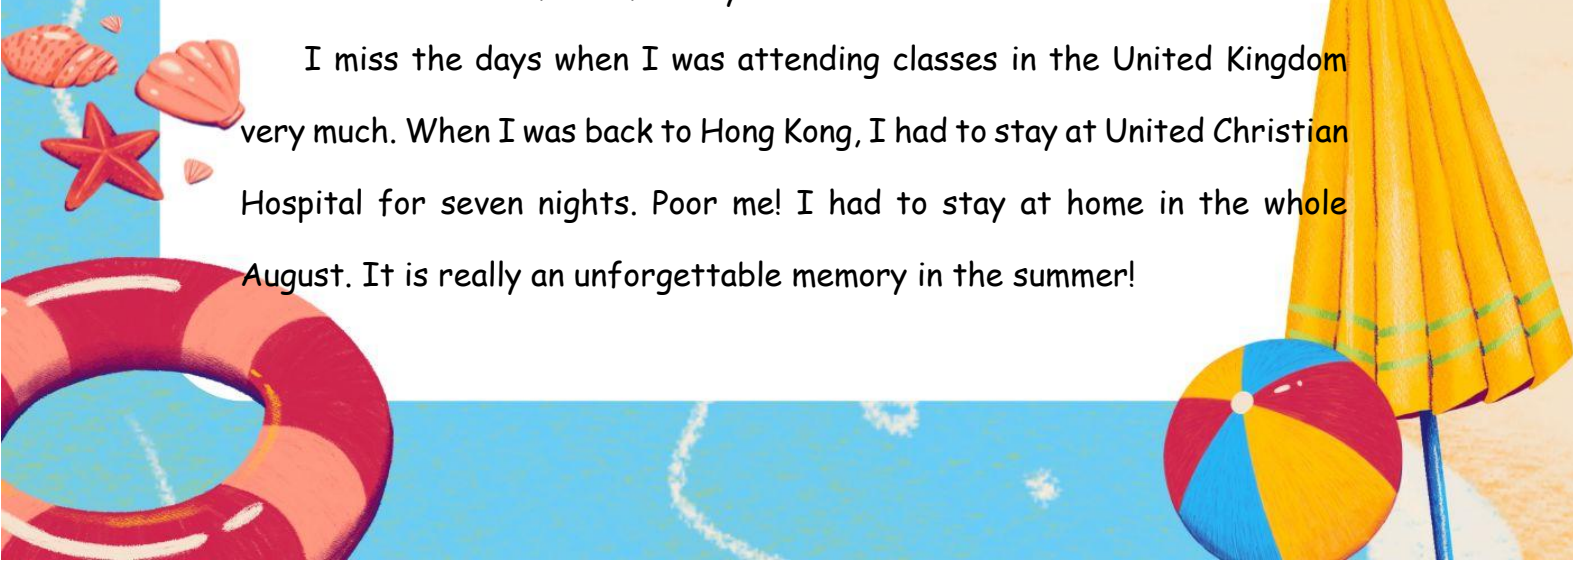

I took a flight on the night of 12th July, 2024 to go to the UK for a summer camp programme. I arrived at Heathrow Airport on 14th July, 2024. My brother and I both participated in this trip.

After arriving, we took a school bus to Kitebrook Preparatory School. There were a lot of animals, such as chickens, cows, rabbits, horses. I had been assigned to share a bedroom with five girls.

On one of the excursion days, we went to Warwick Castle. There was a park near the castle. I was blowing dandelions and playing on the monkey bars. Suddenly, I fell down. My ankle was broken. I went to Oxford Hospital. There were a lot of restaurants and coffee shops. After waiting for two hours, I took two X-ray scans. After that, I went back to school with my left foot in a cast.

On the other days, a school staff pushed me in a wheelchair to tour the Cotswold wildlife park. There were a lot of animals I haven't seen in Hong Kong. I loved capybaras the most.

We also took part in 'The making of Harry Potter'. Our classmates bought a lot of souvenirs there, but my brother and I didn't buy anything because we are not fans of Harry Potter.

I miss the days when I was attending classes in the United Kingdom very much. When I was back to Hong Kong, I had to stay at United Christian Hospital for seven nights. Poor me! I had to stay at home in the whole August. It is really an unforgettable memory in the summer!
