My Easter Holiday

On the 20th of April, I woke up with black circles around my eyes because I was too excited about my trip to Tokyo. I couldn't sleep last night.

The next day, I went to Tokyo Skytree, and I went to the 350m Tembo deck and the 450m Tembo Galleria. I could even see Mount Fuji on the Tembo Galleria too! After that, I went to the pokemon center and made a medallion coin as a souvenir. At night, I could even see the Skytree shining gracefully in the night sky while I was in the hotel!

On the third day, we went to Disneyland and rode a terrifying and thrilling roller coaster called the Raging Spirits. It even has a 360-degree loop!

For the fourth day, my family and I went to the Warner Bros studio about Harry Potter. I discovered the secrets behinds the scene and flew a broomstick. The experience was fascinating!

On the last day, I went to the Science museum at Ueno. There are many life-like figures and the blue whale is impressive. I could see the internal organs, muscles and skeletons of this huge whale, this is the most detailed figure I've ever seen.

During this trip to Tokyo, I understood that planning a trip is a hard thing to do. My parents need to do research and make bookings. I hope that one day I'll be the one doing these things for them.

Happy Easter

My Easter Holiday

I went to Shek O Beach with my family on 18th April. I was so excited before that day that I couldn't even sleep!

First, we went to the Beach Sunshine Carnival to sign up for the egg hunt. Then I saw a big bouncy castle and jumped on it until Mum said it was time to paint the eggs and make paper bunnies.

I made a very special egg for my best friend; it was cut in half, so we both had a piece! My mum made a flowery one, and my dad made a monster one. After that, it was finally time for the egg hunt. They gave us some colorful baskets to help us carry the eggs we found in the sand. We only had three minutes to find the eggs! I found nine eggs, Mum found five, and Dad found six, which means I won!

I felt so delighted and wanted to play again! I think this is the most heartwarming moment in all these years. Love does not depend on what you say; it depends on what you do.

Happy Easter

My Easter Holiday

On the eighteenth of April, I went to the Hong Kong Science Museum with my parents. The museum had new exhibitions because it was Science Festival Week.

First, we went to "The Hall of Mirrors." It is an exhibition filled with many mirrors, and it even had "The Palento 3D Shapes"!

Next, we went to see the games for Science Festival Week. I even saw someone playing VR!

Finally, we went to the "Children's Gallery" to play fun activities like "rolling the ball using hand power."

I felt happy because I was able to visit the Hong Kong Science Museum.

Happy Easter

4L Wong Tsz Long

My Best Friend

My best friend is Ryan Leung. He is a boy with short hair, big ears, and a wide mouth. He is thin and extremely friendly, and he loves to play with me during recess.

He is very kind and always helps others. For example, when someone is feeling sad, Ryan cheers them up with a big smile. He also tells jokes to make everyone laugh.

Ryan is very smart and he does well in school. When he finds something difficult, he asks his friends or teachers for help, so he always asks a lot of questions.

I am so lucky to have Ryan to be my friend in my life.

Happy Easter

My Easter Holiday

During my Easter holiday, I went to Zhangzhou and stayed with my host family for eight days.

They took me to Gu Cheng, where we played exciting shooting games. Then we visited an interesting museum, and I learned about Zhangzhou's history. At night, we had a scrumptious feast. The host family prepared clams, fried fish, and chicken wings. The food was mouth-watering.

My favorite activity was shooting balloons because I won a lot of prizes. Additionally, my favorite treats are chocolate eggs. The host family hid the chocolate eggs in the garden, and I found twenty chocolate eggs. I was thrilled!

Unfortunately, I had a serious allergy, so the host sent me to the hospital immediately. After two days, I felt better. I was touched and grateful because, although they aren't my parents, they took great care of me.
