

P.6 Graduation

I have studied six years in this school. No matter good moments or bad moments, I will share with you about my feelings.

In P.6, I have met a new friend called Corliss. He is in basketball team and he plays well. He always discusses basketball with me. After a few days I joined the school basketball team, we became true friends. This is my first special moment in P.6. The second special moment in P.6 was graduation camp. In this camp, we played card games with our teachers all night. Although this activity was tiring, we still felt excited and the second day we went to BBQ. Miss Sing and Mr. To helped us fry the meat.

My favorite school activity is basketball team. Our coach is called Mr. Wong. Although he is strict, his aim is to help us upgrade our basketball skill. I like this coach and I will miss my class teachers in secondary school, too! I will always contact my classmates and teachers because I want to share my joyful things to them.

I will feel worried in secondary school because secondary school uses all English to teach but my English is not good, so I will improve my English in the summer holiday. "Failure teaches success" this quote is useful to me because when I fail, I will not give up easily.

P.6 Graduation

It is time to leave the primary school! I have studied in this school for six years. There are a lot of special moments in these six years, especially in P.6. There were a lot of special events in primary six, such as the graduation camp. In the camp, I enjoyed the camp with my classmates and teachers. It was fun! In the leadership training camp, I learnt a lot of knowledge of teamwork. I have changed a lot since primary one. In primary one, I was shy and scared to talk with the classmates, but now I am more extrovert and I will not be afraid to talk to the others.

There are a lot of extra-curricular activities but skipping is my favorite extra-curricular activity because I could enjoy it with my friends. I really miss the time that my friends played with me, it makes me feel more relaxing after the classes. I also miss all the teachers because they taught me a lot of knowledge. I will keep their phone numbers to keep in contact with my friends and teachers.

I hope that I can keep high grades in secondary school. I am looking forward to the life of the secondary school. "Work hard, and you can success". The quote can support me to work hard in secondary school.

P.6 Graduation

I'm sure that almost everyone has been here for at least two years. I've been studying in this school for six years and this year is extra special to me. We had a graduation camp and different school trips. It saddens me that this is the last year of primary school. I take pride in my accomplishments, like winning awards or getting perfect scores in pop quizzes. I've grown more mature in this school. I remember when I was in P.1, I was still trying to grasp the concept of Maths. Now, I've learnt more and my skills in Maths have improved by a ton.

My favorite extra-curricular activity is the English pull-out program. It helped me expand my vocabulary and improved my writing skills, since most of us are going to the same secondary school, I won't miss a lot of my fellow classmates. However, I will miss my Music and English teacher - Miss Sing. She has taught me more about parts of speech and moral lessons that I may be able to use daily in the future. I can keep in contact with the classmates by exchanging cellphone numbers. As for the teachers, I'll try to find some time to visit or maybe treat them lunch too!

I feel a bit nervous about secondary school. Time seems to fly like a blink of an eye. I'm worried that my grades won't be able to keep up, or that everyone will be able to catch up but I can't, but I'm sure I'll be fine. I'm looking forward to the clubs in secondary school. I hope I can join the drama or art club since I like writing scripts for shows, and I like doing art. It's my passion. A wise man once said "Follow your dreams". I'll work hard and diligently improve myself and achieve what I desire. This quote will motivate me until I reach my goal.

P.6 Graduation

Many years past, I have to graduate from primary school and promote to secondary school. Among these 6 years in primary school, I think primary six is the most unforgettable year. One of the most special events is the graduation camp in April. We played many games and ate snacks at midnight. We finally heard Mr. To sing as well! Also, we went to a leadership training camp in February. We have learnt the importance of taking care of ourselves. I am most proud of my academic results in my primary school journey. I always get top 10 at the end of the year. I want to keep that record at secondary school, too! In primary one, I was still a curious and playful kid. But now, I am a brave teenager with big dreams. My dream is to be a writer.

My favorite school activity is violin instrument class. My instructor is very nice and he always helps me correct mistakes. I also like Maths and English pull-out program classes. These classes help me learn more knowledge. In these 6 years, I want to thank many teachers for teaching me. Not only do they broaden my mind with subject knowledge, they also deliver countless life lessons, which prepare us to take on the challenges ahead. I also miss many of my friends. We played chess together, we overcame challenges... I will definitely treasure these moments and hope that our friendship will last forever. At last, I want to thank my parents for guiding me throughout these years. Now, I have grown up. I don't really need their help. But I won't forget how they taught me and how well they treated me.

Po Leung Kuk Luk Hing Too Primary School is a great school and I miss this school. I will always remember these memories. In Secondary School, I hope I can make more friends. Also, I hope I can participate in more competitions and even win more. I have learnt that "The harder the battle, the sweeter the victory." We should be passionate to do something, so that's how we will succeed. I hope I will have bright prospect in the future!

P.6 Graduation

Now, I'm P.6. Time flies in a blink and six years has passed. I guess six years is short, but it's meaningful.

I remember I participated in our school Wind Band. At first I was very nervous, but the teachers calmed me down and told me to do my best. This year, we won the gold prize in a competition and I was very proud of myself. Ever since then, I decide to work hard and achieve more goals.

My favorite activity is the art activity called "Artvengers". It not only teaches me different art styles, but also how to express my feelings through art work. Moreover, I will miss my art teacher Miss Wong and my class teachers. Therefore, I will keep contact with them. I will ask for their mobile phone numbers.

I am already feeling nervous about secondary school life, but I think I can pull through it. I am scared that people will laugh about my height. Most of all, I am looking forward to improving my studies and my art skills.
