My Easter Holiday

During the Easter holiday, I stayed in Hong Kong with my family and I had a lot of fun. Let me share it with you.

My family and I played Easter egg hunt. First, my dad hid thirty eggs in a park for me and my mom to find. Some of the eggs were really hard to find, some were hanging on trees, one of them was in trashcan, one of them was on a see-saw, one of the egg was even in the female toilet! We had no idea how my dad put the egg in!

After that, we went home and made chocolate bunnies and chicks. We were on cloud nine when we made them. I couldn't bear to eat them, but we had them anyways.

The Easter holiday was one of the most fruitful experience I have ever had!

My Easter Holiday

During my Easter holiday, I went to Shen Zhen with my family. I went there by bus, the ride was unexpectedly long.

When we arrived, we checked-in at the register and went to our hotel room. We went to the beach after that, it was very fun there. I went swimming and built sandcastles, I also found some beautiful seashells. They had blue highlights all over them.

After that, we sat there waiting for the sunset. Suddenly, it started raining, so we quickly went back to our hotel room.

On the next day, we went to a water park. There were a lot of rides there, I couldn't even choose which one to go on first. In the end, there was a very high ride there, so I decided to go on that one. It was fun that I played it a lot of times. The other rides were fun, but not as fun as that one. After that, we went back to our hotel room. That was the last day of my trip to Shen Zhen. This trip was very exciting!

My Easter Holiday

I went to Sabah during the Easter holiday with my family. I had a lot of fun during the holidays. Let me share it with you.

I went there for six days and five nights. We first went to Weston to see monkeys. After that, we went for the amazing sunset view and fireflies show.

The fireflies on the trees were amazing. The tour guide even told us some interesting facts about the wild.

On the last days in Sabah, we went to Kiulu for White Water Rafting. It was windy, so there were many waves. Our rafting experience was bumpy and we almost fell off of our rafts. The experience was so exciting that my brother and I wanted to try again. Now, I am looking forward to another trip.

P.4 Library Outing

I went to the Hong Kong Central Library on 18th February, 2025 with P.4 class teachers and students. It was a wonderful trip! Let me share it with you.

When we arrived, we first went to Lecture Hall and listened to a presentation on the second floor to learn about the kid's library and book corner. Finally, we could borrow books with our group members. My group members were Isaac, Lucas, Thomas and Layla. We borrowed a lot of books and read them together on the bench.

After the free activity time was over, the guide brought us to each floor and told us about the theme. The guide was so kind! My favourite part of the outing is the free activity time because we can borrow books with our friends and read them for some time.

Then, we went back to the ground floor by elevator. However, someone's shoelaces were broken by the elevator! Fortunately, she was alright. I was really a big scare to us!

I enjoyed this outing very much. I feel grateful! However, I want to learn about Disneyland and play games with my friends next time.

My Easter Holiday

I went to Guangzhou with my family during the Easter holiday. I had a lot of fun during the holidays. Let me share it with you.

I went to Guangzhou for three days. The most memorable is the second day. On the second day, we went to Qing Yuan ChimeLong to play. First, we went to take the Steam trains. The train moved slowly. We could see a lot of animals, such as, giraffes, elephants, lions, tigers, monkeys and many more.

Then, we went to the "Giraffe Savannah". We could feed the giraffes and also play the Aerial exploration there.

After that, we went to the bug world. It has a lot of amusement rides. We went on the merry-go-round and the Insect Express.

At last, we went to the Primate Utopia to see the Orangutan, Hylobates, spider monkeys and Lemurs. Suddenly, it started to rain very hard, so we went home.

I enjoy the holiday very much because it brings us an incredible trip to Guangzhou. I wanted to go to Lotte World to play next time. I look forward to the next holiday and I believe it will be even more unforgettable.
