

5S Hung Cheuk Long

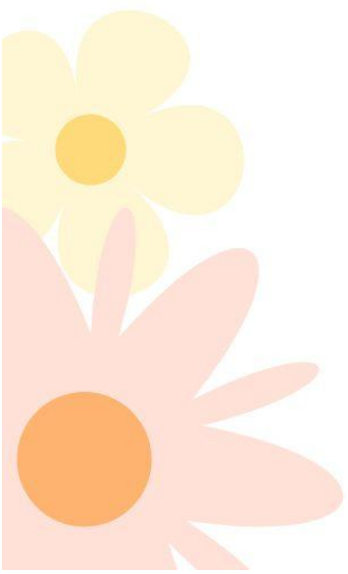

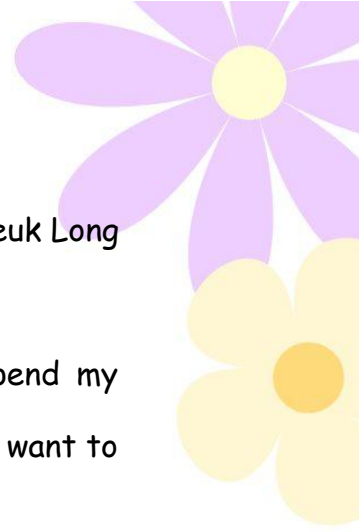

An unforgettable performance

I had a wonderful fulfilling summer holiday this year. I spend my summer break on a wide range of activities. One particular thing I want to share with you is my performance in a musical this summer.

I engaged in more than 100 hours of training and rehearsal before the show. The director taught me different kinds of skills like singing, acting and dancing. I and other actors tried our best to memorize the whole script and work-hard day and night. I got along well with all other actors and we became close friends.

On performance day, I was so nervous that I nearly forgot some scripts, but my companion cheered me up. Finally, it was a good show! My parents and friends all enjoyed the show. They all thought my performance in this musical was very good.

I hope I can join another show to make my parents be proud of me again.

5S Kwan Charlotte

A meaningful and wonderful day!

On the twenty-first of July, I woke up and brushed my teeth. After I brushed my teeth, I went to the breakfast bar and had my breakfast. Then I played some video games with my younger brother.

In the afternoon, I felt very exciting, because I will go to McDonalds and did the charity work with my cute younger brother. After lunch with my mom, dad, younger brother and we started to be a volunteer and I both sold the tickets for two hours! At last, we both sold thirty tickets, we felt very happy that we helped the orphans and disables children. After we got a certificate of app recitation and took some photos, we all left McDonalds at five o'clock.

After we did volunteer, we went my best friends Apple's house and had a dinner with Apple and Trina. We ate Udon and sushi! After we finished our dinner, we played and drew pictures together! We even ate birthday cakes to celebrate Apple and her younger brother's birthday! So they made a wish and we started to eat the cakes!

Then, we went out and watched movie at eight o'clock! We watched a movie called "Inside Out 2". The movie was very amazing and I liked the character called Joy! Because she was brave and clever, finally she saved her friends and the main characters in the story!

At last, we left the cinema and said goodbye. What a wonderful day!

On that day, I felt very grateful, because I helpful the orphans and disabled children, played with Apple and Trina and watched an amazing movie. I hoped I can do a meaningful charity work and play with my friends again very soon!

A wonderful Korean trip

Last week, me and my family were on vacation in Korea for five days. It was very hot there, but we also had a good time.

On the first day, I went to the most famous Legoland in Korea with my family. My sister and I were looking forward to it, because this is the first time we went to Logoland in Korea! There were seven theme parks in there, namely Building Blocks Street, Building Blocks Kingdom, Lego Castle, Lego city, etc. Among them, my favorite is the Lego city, because it's full of urban scenery made of Lego, as I really entered the world of Lego.

The next day, we went to the Running man Experience Hall. You can really experience all kinds of challenges and games in variety shows, although I'm a little tired, it's really interesting. The third day was the most interesting day, because we went skiing in the ice park and it was the first time I met show. Although it's not the really snow of the nature, the feeling is really unforgettable. My sister and I sat on the sleigh and Time pass quickly. It was the fourth day, so we went to the went to water park that everyone was most looking forward to! The facilities in there are waterslides, artificial wave swimming pools, drifting river, etc. Although it took a long time to queue, but we also had a good time!

Unconsciously, it was the last day, and we didn't go anywhere to play, because we well return to the airport at five o'clock. But we still went to the department store to buy letters. There were different things on display, such as different accessories, keychains, dolls, local specialties, etc., and each of us has also chosen several gifts for relatives and friends.

Finally, after buying the letter, we went to a nearly fast-food restaurant for lunch, and then went to the airport. In the plane, I have been thinking about this journey. This is really an unforgettable and exciting trip to Korea!

5S Tsai Se Ho Jeven

A special time in the Museum

A week ago, I and my family went to Tsim Sha Tsai which is known famous for the Space Museum. The museum has two levels, each level contains an exhibition room, best of all, there is a theatre that has film daily. We went to the exhibition room on the upper floor first, there are games and models about the life of an astronaut. It introduced their food, room, toilet in a spaceship.

We went to the ticket machine and looked on the available films, I scrolled around and saw a 24-min film - Antarcitica 3D at 6:30. It left only 2 seats on the front stage. Mom agreed me and my brother to watch the film, we got the ticket and went into the cinema. The cinema is shaped like a dome and the film was projected on to ceiling of the cinema. Everyone lied on the comfortable seats that they are positioned, the whales and penguins seem swimming toward us. I tried to touch them but I could only touch my VR glasses.

The film ended around thirty minutes. We left with memories and happiness as the sun slowly went to the bottom of the sky.
