

### My Easter Holiday

During Easter, my family and I went to Thailand. We had so much fun! We saw beautiful temples with golden roofs. They were very big and shiny. We took a lot of pictures and learned about their history.

We also went to the beach. The sand was soft and water was clear. We built sandcastles and splashed in the waves. The sun was warm, and we enjoyed ice-cream too! At night, we visited a night market. There were colorful lights and lots of tasty food. We tried noodles and fried bananas. Everything was delicious!

We laughed and played together every day. It was a great time with my family. I love Thailand. Also, I will remember this trip forever! I hope we can go back again one day.

### My Easter Holiday

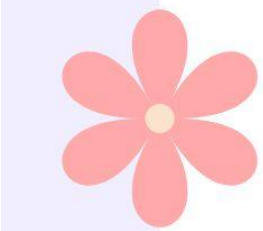

I start having my Easter holiday on 17<sup>th</sup> April, 25. During my holiday, I go to Beijing with my friends to play ice hockey. I also eat a lot of delicious food there, such as hotpot and skewers.

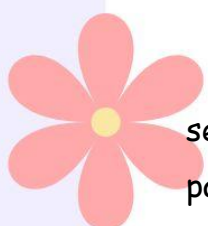

We have two friendly ice hockey matches in a Beijing ice hockey club. It is really fun and I learn a lot. Also, I play go-karting with my friends.

I feel so delighted and relaxed because I do well in my ice hockey competition. I enjoy my Easter holiday so much. I have a great moment with my family and my friends. I can't wait for my next ice hockey trip.

### My Easter Holiday

The Easter holiday starts from the seventeenth to the twenty-seventh of April. During the time, I travelled to Jeju Island with my parents. Before packing our luggage, I was already very excited. When I was very young, we had been there once in 2019, which was one of my mum's unforgettable memories. Thus, we decided to go there again.

On the first day, we went to O Sulloc Tea Museum. We had yummy and chill afternoon tea. We ate green tea cake and ice-cream and also drank tangerine smoothies. They were so refreshing and delicious!

On the second day, we went to U-Do Myeon by ferry. We tried the famous peanut ice-cream, looked at the green and blue sea with a long coastline and saw a lot of different shapes of volcanic stones, which I thought they looked weird but interesting.

Besides that, we also visited Camellia Hill and Jeju Stone Park. We saw a great number of flowers such as camellias, hydrangeas and azaleas as well as varied stones and stone statues like Dol Hareubangs.

I felt so proud of myself that I climbed up more than one thousand steps to the Summit of Seongsan. Although I sweated a lot and felt exhausted, I kept climbing and didn't give up. One more thing I want to share is that I saw female divers of Jeju Island when I walked along the beach. They were the wonders of Jeju Island as well as one of the intangible cultural heritages in the world.

I felt overjoyed of my trip this time at Easter. Jeju Island is a famous place for natural scenery, beautiful seas and volcanic stones. If you have opportunities to go to Jeju in the near future, don't forget to try black pork, shabu shabu, stone pot rice with abalones and Korean barbecue because they are so mouth-watering.

I wish I could travel to somewhere else during the summer holidays. Like many Hong Kong people, travelling has become one of my hobbies.

### My Easter Holiday

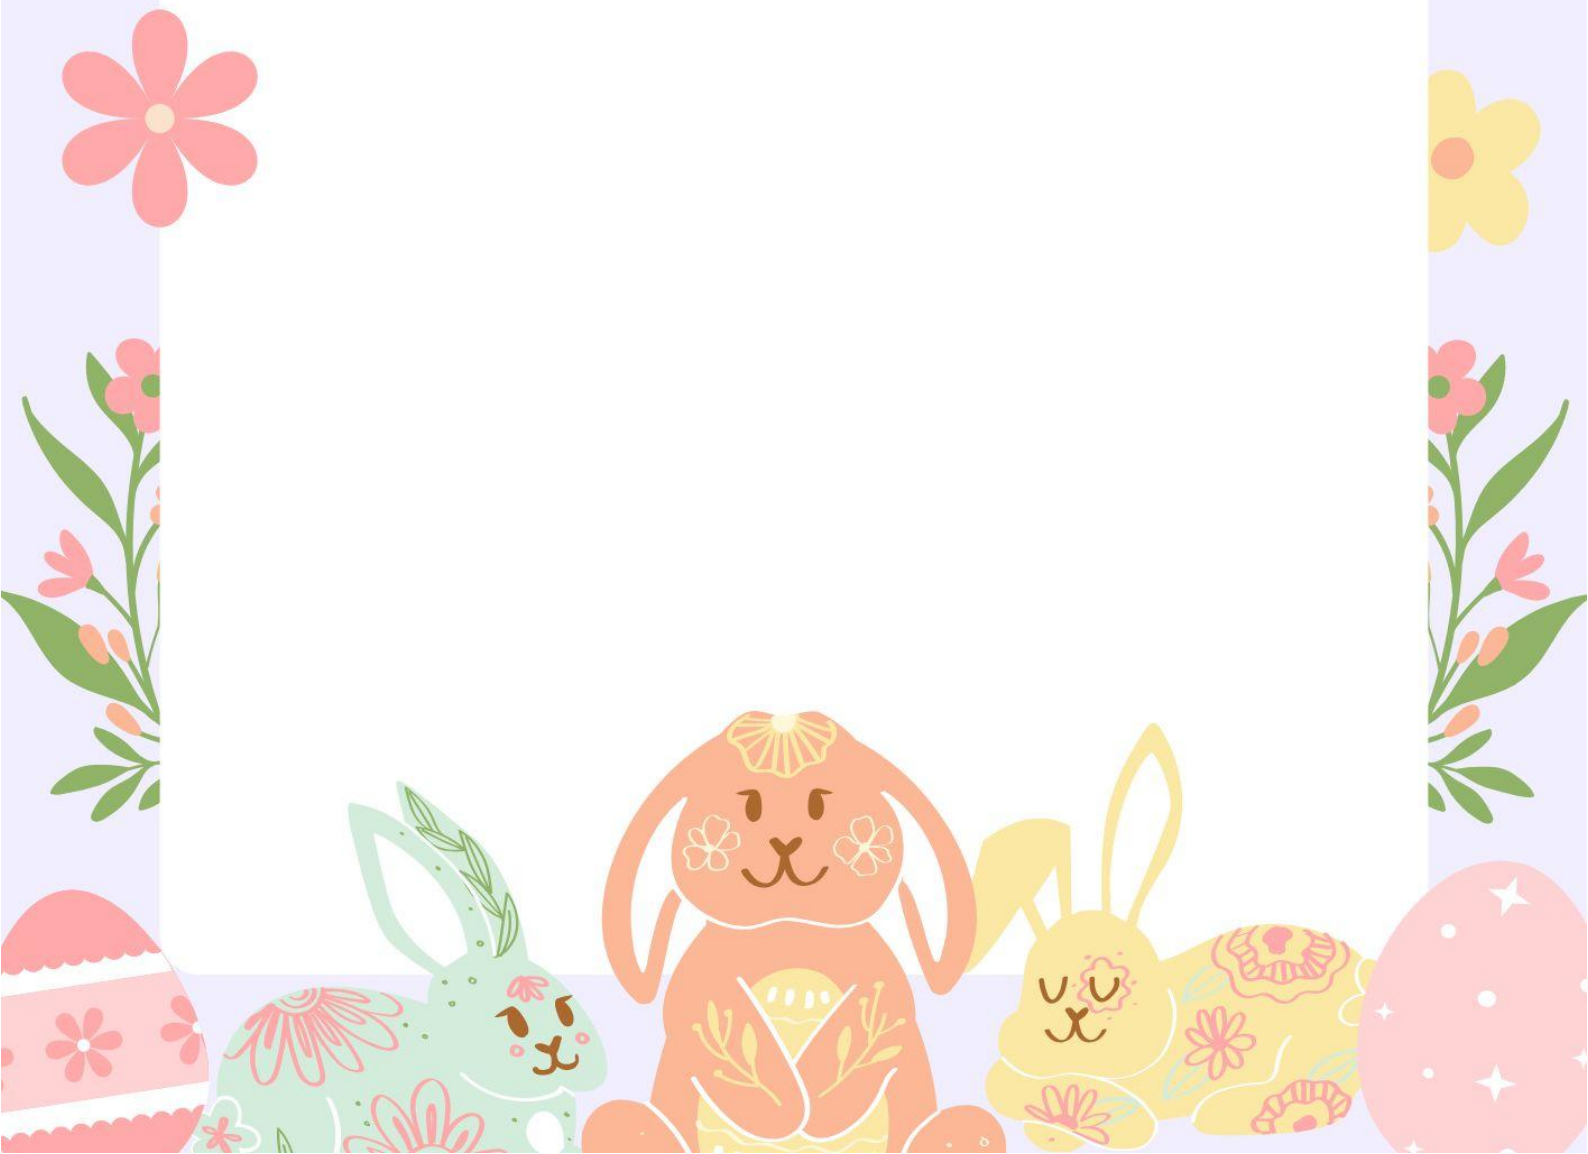

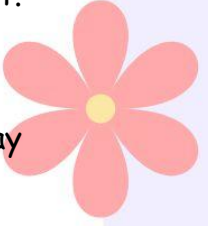

My Easter holiday starts on 17<sup>th</sup> April this year. I have an amazing time in the holiday.

I go to Chimelong Spaceship in China with my family. It is a huge theme park. There are many exciting rides and big aquariums. I see whales, sharks, penguins, dolphins and polar bears in the park.

After a joyful day, we have a buffet dinner in the hotel restaurant. The food is very tasty!

I feel joyful and relaxed in the holiday. I enjoy my Easter holiday because I have a wonderful trip with my family!

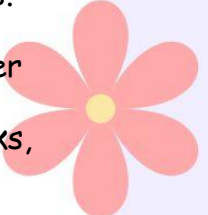

### My Easter Holiday

In this Easter holiday, my family and I went to Zhangqing for four days. When we were in Zhangqing, we went to an enormous graveyard mountain. We walked to the top and visited our ancestors and family members' graves.

It was hot but exciting when we were tidying up our ancestors' graves with some tools such as gloves, iron shovels and iron hoes. It was not easy to clean up our ancestors gravesite but we do it to respect our ancestors.

After completed this important mission, we celebrated our Easter holiday by setting off fireworks. It was my first time setting off fireworks, I felt very excited but I was a little bit scared.

I enjoy this Easter holiday because I went to my dad's home town and did something I have never done in my life.
