

Unforgettable Summer Activities

In this summer holiday, I had joined many different activities and events! One of them is the cooking lesson, and it was very fun. We had to go to the kitchen in the center every Thursday.

At the first lesson, my sister and I went into the kitchen. We saw some other students in the same class. We became friends with someone in the class. We made some chocolate lava cake together and it was fun to make it.

It was unforgettable to me because everyone helped each other to make delicious desserts and the lesson taught us how to make desserts! I feel very happy to learn cooking and baking, so did my sister! I suggest everyone to try cooking and baking at my age.

An Unforgettable Trip

Last week, I went to Disneyland with my mum. First, I headed to Tomorrowland to experience the Ironman Ride. I was super happy because Ironman could move around and it felt like I was really flying!

After playing Ironman Ride, I went to "It's a Small World". I took a pink boat ride there. The best part was listening to songs in many languages. It was really cool.

Then, I went to Toy Story Land and played on Slinky Dog Dash. I kept wondering how Slinky Dog could be so long and bouncy.

After I left Toy Story Land, I saw a strange boat. My mom said someone on the boat could tell people a story and tourists can see crocodiles, but they are not real.

Finally, I went to shops and bought some souvenirs. After seeing some gorgeous fireworks, I felt happy because I could play a lot of games, buy souvenirs and make commemorative coins. It was really an unforgettable trip.

An Unforgettable Event in Summer Holiday

On the thirteenth of July, my parents took me to Hoi Ha Wan to visit Hoi Ma Wan Marine Park. We were excited to see the corals the first time in our lives.

When we arrived, the weather was wonderful. Although a typhoon just passed by Hong Kong a few days ago, the sea looked quite calm. I could see the waves sparkling and a lot of people playing on the beach.

After getting off the bus, we walked straight to the service center. As we applied a trip to see the corals, the guide from the center told us about the marine ecosystems and some rules we should follow on the boat. Once everything was set, we saw the guide waving at us by the pier, so we got on the glass-bottomed boat finally!

The view on the boat looked stunning at first. The corals were so large that I could not see the ends. Would you believe that millions of creatures live inside them? However, we could not even recognize the species of the corals because the sea was too dirty! The guide explained to us that it was caused by typhoon, but also by humans ourselves!

It is this trip that reminds me to do something for the environment immediately. I tell my parents I want to help, so they agree to let me volunteer for the beach cleaning activity next week. Although I couldn't see beautiful corals this time, I had meaningful trip in Hoi Ma Wan.

An Unforgettable Trip

Last summer, I went to Thailand with my mum and dad. We went to Thailand because I had never been to Thailand before and I wanted to try Thai food.

On the first day, we went to a water park. There were many exciting slides in the swimming pool. I ran to one of them. At first, I felt scared because it was so high, but after sliding down, I thought it was fun. It was quite fast!

After that, we went to the zoo. We saw a little lion lying beside its dad. I thought they were so cute. We also met an elephant and it was huge. We saw two tigers eating meat. I thought they were incredible because we cannot see them in Hong Kong.

At night, we went to a famous restaurant for dinner. We ate a lot of food, such as pad Thai, Tom Yum soup and green curry. They were finger-licking good and we were very full.

The next day, we went to an aquarium. We saw a baby shark, some starfish and two killer whales. They were amazing.

This trip was so unforgettable because I spent good time with my family. I felt so glad because I experienced many new things that I cannot do in Hong Kong. I wish I can come to Thailand again.

An Unforgettable Event in Summer Holiday

A few weeks ago, my friends and I went to Shenzhen together. Firstly, we went to a shopping mall to eat lunch. We settled down at a place to eat dim sums. There were lots of other yummy delicacies that were exclusively in China.

Later, we arrived at an arcade. There were some claw machines first. Then, we played about five or six arcade games. After that, we left. Some time later, we went to a supermarket to buy drinks and snacks to eat. After we finished eating, we sat down in a cinema and watched a movie that was unforgettable.

At about six o'clock, we walked to a go-kart racing indoor stadium. We chose our go-karts and started the race. We zoomed around the obstacles, around the checkpoint, then finally crossed the finish line. We played for a few more times before we got a bit tired and hungry.

We entered a buffet restaurant that was famous for its desserts. We each took a plate then started picking food. I saw what looked like a never-ending supply of food and was awe in shock. I was having a lot of trouble choosing what to eat, so I walked around, trying to find food that I liked. Finally, I picked some chicken wings, sausages, fish balls and spaghetti. Once everyone finished eating, we paid and left to ride the MTR home. This was a very exciting, new and interesting trip! I wish to come here again.
