

A wonderful event during Nan Hai trip

The 30th of October to the 1st of November was the school Nan Hai trip. The weather there was sunny and we stayed in the Wanguo Yuanbao hotel for 3 days and 2 nights.

We got to Nan Hai by coach and we arrived there at about five o'clock. All of my classmates were very excited about the trip.

Then we visited many tourist attractions and the Nan Hai Foreign Language School. I think that visiting the school, painting the Zhenhao mud chicken and visiting the watchtower are the best parts. The Nan Hai Foreign Language School was very big as there were many students and teachers. There were also some VR devices there and a battleship exhibition. We also took some P.E. lessons which taught us how to play pickleball. Playing pickleball was also very fun! Also, their lunch there was very delicious and we got to choose our own food!

We also painted a Zhenhao mud chickens and we could make sounds by blowing them, pulling and pushing them! Those sounds were very funny! We used many different paints and all of my friends made colorful chickens. They looked great!

In addition, we visited the watchtower which had many uses in the past. Our tour guide told us that the watchtower's main functions were preventing thieves from getting in and preventing floods. Moreover, one of the watchtowers was connected to a river so people could escape easily when dangerous things happened. We also saw the business man — Xie Waili's magnificent garden.

When we came back home, it was already 5 o'clock. I think this trip was very meaningful and memorable as we learnt many things there. I hope that I can visit Nan Hai again because it was very fun.

A Wonderful School Picnic

Our school picnic was on the fourth of November of 2025. It was warm and sunny that day which made everyone feel excited. We went to PLK Jockey Club Pak Tam Chung Holiday Camp.

At about eight o'clock, our teachers took us to the Holiday Camp by coach and we arrived there at about nine o'clock. The traffic was fairly smooth.

Before the picnic day, I prepared some chips, biscuits, candies and so on. When we got to the camp, we first played games like football and basketball. Afterwards, we sat together to share our snacks. After eating, we went to ride bikes. There were many schoolmates who were queueing to ride bikes.

Around two thirty, it was time to leave. We got back to school at about three. Though I felt a little tired, I was still very joyful. I think the school picnic was exciting and memorable. I hope I can go to the same picnic site next year. The reason is that it's a good place where I can have fun with my classmates and enjoy the nature.

A Wonderful Event during Nanhai Trip

That morning, I woke up very early because I had a school trip to Nanhai. I was so excited about it. The weather was sunny and hot. My classmates and I went to Nanhai by coach. Then, we arrived in Nanhai at about five o'clock and we stayed in Wanguo Yuanbao Hotel .

In Nanhai, we went to make a Zhenhao Mud Chicken, we could blow it to make some chicken sounds, which was very interesting and amazing! We also learned some different Chinese traditional cultures there. The next day, we went to Nanhai Foreign Language School. First, we had lunch in the dining hall. Then, we played cricket with the coach. It was very difficult to play, but the coach taught me patiently. In this unforgettable Nanhai trip, I have learnt that how to play different sports!

Finally, we took a coach to go back our school about five o'clock. During this Nanhai trip, I felt it was meaningful and memorable. In the future, I wouldn't go again because I already learned some different cultures there. I would like to explore other cities to experience more.

A Trip to Nanhai

The school trip to Nanhai was far more than a fun getaway - it was a heartfelt journey of history, culture and friendship that I will cherish forever.

We started by assembling at school. Then we boarded a coach to Shenzhen Bay port. On the coach, we chatted freely. We played games and we sang songs happily. Also, we shared some delicious snacks. After going through customs and a long wait, we finally reached our destination. We had lunch. Even though the meal wasn't as tasty as I had expected, sitting together with friends, chatting and laughing all the way, turned it into a warm and sweet memory.

The highlight was experiencing the intangible culture heritage - Zhenhao Mud Chicken. Following the instructions and the guidance, we blew the chicken and they made sounds just like real chickens. It was amazing and fun.

Later, we visited Nanhai Foreign Language School's modern campus, sunny classrooms and warm teachers. The students and we all interacted joyfully.

In general, this trip was unforgettable. I am honored to take part in this journey. This trip taught me to appreciate history, value friendship and find beauty in every moment.

A wonderful event during Nanhai trip

The trip is from the 30th October to 1st November. The weather was sunny. We stayed in Wanguo Yuanbao Hotel.

My classmates and I got to Nanhai by coach. We arrived in Nanhai at about five o'clock in the afternoon.

On the first day, we saw the Watch Tower and the tour guide told us some about it and we participated Zhenhao Mud Chicken, Cantonese Opera Art Museum, a school visit, cultural experiences, and so on.

We returned home from the trip at about five o'clock in the afternoon. I felt wonderful and unforgettable.
