

### **My Christmas Holiday**

In my Christmas holiday, my brother and mum spent the most of the holiday with me. At the start of the holiday, I felt exhilarated, because my parents and I went to Taiwan Chiayi to watch my brother performance, but before we left Hong Kong, we decorated the Christmas tree, it was very beautiful.

On the 20<sup>th</sup> of December, we took the flight to Kaohsiung in the morning, then we took the high-speed rail to Chiayi, it took around thirty minutes. After we arrived at the hotel, we found a restaurant to have our lunch. I ordered a Taiwanese braised pork rice, it was very delicious! The most fascinating experience in the trip was enjoying my brother's performance, he performed with the wind bad, it was fantastic!

In this holiday, I felt delighted because I did many different activities in this holiday. It was memorable. I wish my next Christmas holiday to be similar, because I can go to travel again!

### **Mother's Day**

On Mother's Day, I spent the day with my mum, brother and dad. At the start of the day, I felt very excited, because I was secretly planning a surprise for mum.

On that day, dad and I woke up very early to decorate the table with different hearts, we were delighted. Then, I also designed a beautiful card for mum. When she walked out from her room, she saw the decoration, she was impressed. She gave us a big hug. After that, we went to mum's favourite restaurant to have a delicious lunch. We ordered some pizza, spaghetti, roast beef. We felt satisfied.

At the end of the day, I felt a little bit tired, but all the hard work was worthwhile! I hope I can celebrate this special day with my mum again next year.

### **My Christmas Holiday**

In December, my family and I went to ShenZhen for a Christmas holiday trip.

On the first day when we arrived at the port, we ate "Suan Cai Yu" it is spicy but delicious, then we took a one hour train ride to a hotel called Oasis O City Black Forest Hotel. It is enormous. When I got inside the lobby, I met my best friend too.

When we got our room, it is wonderful, there is a double decker bed, a massage chair and even more! It is like I'm on a first class plane seat. After that, many exciting adventure, it is dinner time, we went to the nearest shopping centre that we could find and eat some Chinese traditional food, it is delicious. At midnight, we ordered some skewers, they were fantastic!

On the next day, my family and I went downstairs for the breakfast buffet, it is like a food paradise! We checked out at three o'clock and took a bus ride down the forest. After going down the forest, we went to King Sha Centre, there is a big massage in the mall, my best friend and I massaged in the room for three hours, it was relaxing.

At last, it was time to go back to Hong Kong, when I saw the playground below the bridge port, I really wanted to visit Shenzhen again next year, what an unforgettable trip!

### **Mother's Day**

Today was Mother's Day, and I celebrated it with my parents and my pet dog. I got up early with excitement because I planned to make breakfast for Mum with Dad. It was a sweet potato and a cup of coffee with a heart on it. I was planning this surprise secretly. I had to be careful and quiet so that I wouldn't wake my Mum up. When Mum was having a loving breakfast, she smiled from ear to ear and expressed her gratitude sincerely.

After making breakfast, I helped mum with the housework so she could relax and rest. Not only I mopped the floor, but I also folded the clothes. They were more difficult than I expected. After ten minutes, I felt so exhausted.

I experienced how exhausted mum is every day. Therefore, I truly appreciate her efforts in taking care of us. I will always behave well and respect Mum in the future.

### **My Christmas Holiday**

Yesterday, I attended the Hong Kong Cup short track speed skating 2025. It was my first time attending this race, I was so nervous that I cried. I have just started playing this sport for only six months!

The race started, and it was almost my turn! I need to get ready, I wore my skates and put on my helmet. Before my turn, my teammates whispered, "Good luck, Yi Hei." that made me feel better.

"Go to the starting point, ready, go!" shouted the judge loudly, I ran as fast as possible, hoping to get the top three, but when I looked at the leaderboard, I didn't win.

My coaches comforted me, Coach Yang said, "You are so talented, not everyone can get the fourth place at a beginning stage!" Coach Wu said proudly that I will be in the top three two years later, my teammates whispered, "You did a great job!"

It was a great experience for me! If there are any other races like this one. I am willing to attend the races to challenge myself!

### **My Christmas Holiday**

In Christmas holiday, I felt excited because my family and I were going to the beach at Christmas. I liked a Christmas tree with lots of small gifts, and hung up fairy lights, it made me feel very warm and cozy.

First, we went to the beach to build sandcastles. The weather was great, and the seawater sparkled. The sandcastles were beautiful, I wished I could live in a beautiful castle like a princess. Then we took a boat to the restaurant in the middle of the sea, it was amazing. There was a lot of delicious food, such as seafood fried rice, lobster, seaweed, and scallops. I like seafood fried rice best because it was yummy. Mum liked fresh fish.

Finally, we went to a small souvenir shop. My aunt bought me a small seashell hanging ornament. My younger brother also got a seashell-patterned accessory. We also took many photos.

My family and I had a wonderful holiday. I was a little sad when it ended, and I hope to spend the next Christmas holiday with my family again.

### **Sai Kung Mangrove**

On 16<sup>th</sup> April, I went to Sai Kung Mangrove with my teachers and classmates, I was very excited.

Before we went out, we wore our rain boots and found our partners. My partners were Boy Boy and TK. Then we went to Sai Kung Mangrove by school bus.

After arriving at the destination, we got off the coach. The weather was sunny, I saw many Spiral shells. I took one up, its feet stretched out, it was very cute. Next, I heard someone shout, "There is a hermit crab! There is a hermit crab!" I took a closer look, it was walking towards me, it's very big. Then, we saw fiddler crabs, mudskippers, barnacles... It was truly eye-opening. After that, my partners and I did some records. We measured the water temperature, salinity, pH value and tree height.

In the end, it was time to go back to school. I thought the school trip was very unforgettable. Most of us were tired but satisfied.

### **My Christmas Holiday**

This Christmas holiday, I went to Beijing with Mum and Dad, and I was so excited since the first day because it was my first time visiting the capital city. Before we left, our home had a small Christmas tree with a red Christmas knot on it - it looked so nice, mixing Christmas fun with Chinese style, and I loved it so much.

We did many fun things in Beijing as a family. We visited the Forbidden City, where we walked through big, beautiful palaces and my dad told me stories about old Chinese kings. My favourite gift was a small model of Tiananmen from my parents, because I stood in front of the real Tiananmen Square and saw the national flag go up. We ate a lot of Beijing snacks too: spicy bao du fen was my favourite, and we had shuan yang rou hot pot on Christmas Eve - it was warm and tasty. We also went to the Military Museum to see old planes and tanks, and the Temple of Heaven with its round buildings.

The best part of the holiday was travelling with my parents and seeing all these cool places together. When the holiday ended, I felt a little sad to go home, but I had so many happy memories. I hope next Christmas holiday is just like this one! We didn't have time to visit the Great Wall at that time, so I really want to visit it with my family next time - it must be worth visiting.

### **My Christmas Holiday**

This Christmas holiday, I spent most of my time with my family and friends. At the start of the holiday, I felt excited because I had a clarinet performance. My family decorated our home with a beautiful Christmas tree, my favourite decoration was a shiny golden star placed on top of it.

The song that I performed was "A Whole New World" with my partner, Karry. We also acted as MCs for the event. After the performance, we had a party where everyone ate together, I met my best friend Zoe. My favourite gift was a crystal cat blind box from Zoe. Inside was a crystal cat holding little yellow flowers, it was so pretty! We also enjoyed a big meal, I like the chocolate cake the most.

The best part of the holiday was exchanging presents and drawing together. Zoe gave me a piece of paper to draw on after she opened her notebook gift. When the holiday ended, I felt happy but a little sad because I missed my friends. Next Christmas, I hope it will be similar one because I enjoyed performing and spending time with my family and friends so much.

### **Sai Kung Mangrove**

Last week, my classmates, teacher and I went to Sai Kung Mangrove for a Science excursion. We all felt excited and delighted at the very beginning.

Then, we went on the coach. While we were on the way, we saw some cows. Everyone was shocked to see the cows. When we got off the coach, we still had to walk a long way to Sai Kung Mangrove, it was like we were hiking.

After the long walk, we finally arrived at Sai Kung Mangrove. When we were doing the science experiment, we have to observe the water temperature and the salinity.

The best part of the experiment was that I could see so many cool sea animals. After the trip, I felt tired but delighted and more connected to nature.

### **My Christmas Holiday**

In my unforgettable Christmas holiday, I spent most of the holiday with Mum and Dad. At the start of the holiday, I was very excited because I didn't need to go to school. I was a bit heartbroken because we didn't have any decorations at home. If possible, I would like to put a tiny Christmas tree at home.

During this long Christmas holiday, my family and I watched New Year's Eve countdown together happily. Although no fireworks that time, I still enjoyed the time being. There were a lot of people that I couldn't even hear what Mum say clearly. I received a great present. It was a model that you need to build yourself. We also had a delicious meal together! I mostly enjoyed turkey because turkey tastes like a milder, rich, and slightly gamier version of chicken, with a savory, earthy flavor. We didn't go anywhere special because I need to study hard for the coming exam. However, I still can enjoy the Christmas holiday.

In this Christmas holiday, I enjoy the most is to countdown together because I can enjoy the family time. I felt a bit sad for the end of the holiday because I need to go to school again. For the next Christmas holiday, I want to go to a special place to travel with my family.

### **Mother's Day**

On that day, I spent most of the time with my mum. When the holiday started, I felt excited and wanted to plan a surprise for my mum. Therefore, my sister and I went to the cake shop to buy a fruit cake because my mum likes eating fruit. Moreover, we needed to buy some decorations so that we could decorate our home. I was very excited for the day.

When we came home, my mum was very surprised and touched. We started decorating the home. We decorated the home with LED lights and heart-shaped pillows. We were all having a great time! At night, my dad came home. We turned off the lights and brought the cake out from the fridge. We all said, "Happy Mother's Day!" My mum was very surprised. She was very thrilled. We ate the cake happily. Finally, we went to the beach for a walk.

I thought the best part for us was when we were having a beach walk. I was very excited for the next Mother's Day.

### **My Christmas Holiday**

My Christmas holiday was very special this year because my whole family went to Guangzhou! I was so excited that I packed my bag three days before the trip.

On the first day, we visited the Chimelong Safari Park. It was huge and we saw many amazing animals. My favourite were the panda triplets. They were so cute, rolling around and playing together. We also saw the famous white tigers. They looked so powerful and beautiful with their bright white fur and blue eyes.

The best part was the elephant feeding activity. My brother and I got a chance to make an "elephant rice tube"! First, we filled a big bamboo tube with small pumpkin and carrot pieces. Then, we covered the "Top" with a large slice of pumpkin. The keeper threw our tube to the three waiting elephants. I thought, "How will the elephants eat from that hard bamboo tube?" I didn't have to wait long. The elephants cleverly stepped on the tube with its strong foot - CRACK! The bamboo broken open. Then it used its long trunk to pick up every piece of pumpkin and carrot, eating happily. It was amazing to watch.

This trip was unforgettable. I learnt so much about animals and had the best time with my family. I hope we can go there again next Christmas!
