

My Summer vacation in Tokyo

During the summer holiday, my parents and I went to Tokyo, Japan. It was my first visiting Tokyo and I was very excited.

First, we went to the teamLab Planets Tokyo. It was so amazing! The room was full of lights and colours. I liked catching different animals on the walls and floors. It felt like I was in a magical world.

The next day, we visited the Fujilo Museum. There were a lot of Doraemon items. Doraemon is my favourite cartoon character. I took many photos with Doraemon and bought a lot of souvenirs in the museum. I felt very happy.

I also enjoyed the food in Tokyo. We ate ramen, deep fried pork and BBQ beef. I like BBQ beef most because it was delicious. I had a wonderful time in Tokyo with my family. I was an unforgettable summer holiday!

One Happy Day

During the summer holiday, I visited the Ocean Park with my family and friends. Even though it was a scorching hot day. I was super excited. I missed going on the wild rides and seeing the adorable animals that lives at the park. We woke up nice and early and dad drove us there. Once we arrived I was super happy to meet up with my friends to explore and play together.

We decided to go all the crazy rides first to avoid the long queue later in the day. Unfortunately, I still wasn't tall enough to go all rides. But I was allowed to go on majority of the rides. The roller coaster, Bumper Blaster and Whirly bird rides were the funniest.

After the rides, everyone was drenching with sweat. We couldn't be happier to go into North Pole and penguin exhibit centre to see the penguins, seals and walruses. The centre was nice and cool. By midday we sat down and enjoyed the dolphin show. Afterwards we were super hungry, so we enjoyed a quick lunch at Club Panda Restaurant. We visited the adorable Pandas. We had time to see a few my feeding shows and go on the cable car to enjoy the breathtaking view.

Lastly, we went to the Aquarium to see all the awesome fish and sea creatures. I felt extremely happy.

I had a lovely and memorable day at the Ocean Park. I always find Ocean Park to be an interesting and fascinating place and always hoping to go again.

An unforgettable event in the summer holiday

Yesterday, I went to Ocean Park with my family and my friends.

We rode on the roller coaster. It was so exciting. After that, we went to the Aquarium.

There were a lot of sea animals, for example, dolphins, sea turtles and sharks. My favourite sea animal is dolphins because they were so cute.

At night, we felt hungry, so we went to the restaurant. We ordered children meal and the food was put in a train container. There were some vegetables, some corns and some pork. It's so delicious!

I thought the roller coaster was unforgettable because it was so fun and exciting. I felt very happy and cheerful. I hope I can go there next time.

A Trip to Safari Park Shenzhen

Yesterday, I visited Safari Park Shenzhen with my family. Upon arriving at the zoo, I was amazed by the size of the park, which housed a lot of animals, including hippos, rhinos, tigers and lions etc.

The most unforgettable event was feeding the tigers. I went on a special bus that took us into a cage where we could safely feed the tigers with pieces of pork using a fork. The tigers' mouths opened wide, and saliva dripped as they tore at the meat. I was truly shocked by this extraordinary feeding experience.

At last, we were all tired and left the zoo at around six o'clock in the evening. In this trip, I learnt a lot of knowledge about wild animals.

An unforgettable volunteer work

During summer holiday, I joined a volunteer work with my friends in Tseung Kwan O.

When we stepped in the elderly home, we saw many tired faces. We set up the games that we decided to play with the elderly.

We played monopoly. During the game, we found that the elderly were extremely smart which made the games challenging. I tried my best to win the game, but the elderly still won it.

After that, we had a dance performance for the elderly. When we were dancing, I saw many smiling faces under the stage, which made me feel joyful.

After the whole day, I realised that bringing happiness to the elderly was super easy. This is the most unforgettable volunteer work in my life.

In the end, all of us didn't want to leave. I wish to visit this place another time.
