

My flight training program

In my summer holiday, I joined a flight training program with my friend. I am very excited because it was my first time to join the flight training program.

The program was about flight planning, airliner operation and fuel policy. In my first lesson, the teacher shared some knowledge about comprehensive ground school theory training to help us build some skills. After he shared the knowledge he showed me to practise the flight simulator. It was amazing!

It was a worth activity because this program taught me a lot of aviation knowledge. It was very interesting. I hope I can be a pilot in the future.

My school picnic

On the 4th of November on Tuesday, we went on our first school picnic at Pak Tam Chung Holiday Camp. The weather was perfect, just cool and comfortable. My classmates and I went there by coach. Everyone was very excited. We couldn't stop talking about all the fun things we wanted to do during the picnic.

When we arrived, the first thing we did was playing the claw machine. We were all very excited and bought some tokens. The tokens were quite expensive, but we had fun trying our luck. Something really funny happened when we were playing. We noticed that even if we didn't insert a token, the machine would still work ... but only once!

In the end, we managed to win a total of six plush toys. We even shared some with our other friends. It was such a fun start to the day!

Next, we tried cycling. At first, none of us knew how to ride a bicycle, but after a few tries, we all got the hang of it. It was so much fun riding together! After that, we went to play hide and seek at the playground. It was super fun!

I would love to go on a picnic like this again because it was truly fun, exciting, and full of great memories with my besties!

My school picnic

On 4th November, my classmates and I went to Pak Tam Ching Holiday Camp in groups. The weather was wonderful and the sun was smiling at us! We had a great time there!

First, my groupmates and I went to the children's playground. We played on a swing that looked like a spider web in a circle, the worm-like slides and a spinning bowl. Then, we went to the children's rope course. We had fun with the wobbly bridge, the rock wall and more! Lastly, we learnt roller skating, but Ella and Jody were hurt. So, I dashed to get bandages for them. However, when I came back, there were bandages on their wounds. Furthermore, they said "The bandage's on It's on!" I laughed. They we had lunch together. The food tasted great because I was hungry. The picnic ended great after all. I drew a picture to remember this moment.

An unforgettable Trip to Penang, Malaysia

This summer holiday, I had an amazing journey to Penang Malaysia with my parents. The most special part was visiting my great-aunt who lives there.

We started our adventure by going to Penang hill. Taking the funicular train up, I was amazing by the green forest and the city getting smaller and smaller below. At the top, the cool wind and beautiful views of Penang made me feel like I was in a fairy-tale world.

Next, we visited the Nyonya Museum. There, we saw beautiful traditional clothes and old-time furniture. Learning about the unique Nyonya culture from my great-aunt was so interesting. Of course, we couldn't miss the delicious food! We tried Penang Laksa which had a spicy and sour soup that make me taste buds dance. Last but not least, durian! The strong smelling but super-tasty fruit is really a "king" of fruits.

One evening, we went to a beachside restaurant. The sunset view while eating yummy food was just perfect. Spending time with family, exploring new places, and tasting delicious food in Penang made this holiday unforgettable. It's a trip I'll always remember!

My school picnic

Last week, I went to Pak Tam Chung Holiday Camp with my classmates including Cherrie, Jacey and Hailey. The weather was sunny and we felt energetic and excited.

When we arrived, we played roller-skating first. Sometimes I fell down, but later I got better and skated more smoothly. After that, we rode our bikes together. It was fun.

The most fantastic part was playing hide-and-seek. I hid at the top of the inflatable castle, so I thought my friends couldn't see me. It was exciting to wait and see if they could find me.

Then, it was time for lunch, I ate sandwiches. Cherrie ate snacks for lunch. I thought, "That's very cool. I wanted to eat snacks, too!"

At last, it was time to leave. We were a little exhausted, but we felt ecstatic. I hope I can go there next year.

The most unforgettable event of my summer holiday

The most unforgettable event of my summer holiday was visiting the Station Rail Voyage at Hung Hom Station with my mom. It was a special exhibition about the history of trains in Hong Kong.

There, I saw four rare trains. There are GM-L56, yellow head, MLR and Ktt. The staff told us that in the past, trains rang bells instead of using TV screens to announce arrivals.

I felt so excited because I learned how technology changed our lives. Before leaving, we received old train ticket as souvenirs. This trip was unforgettable because it made history feel alive!

My school picnic

Last week, I had a school picnic. I went to Pak Tam Chung with my classmates. The weather was sunny.

First, we got on a coach. Everyone was excited. When we were on the coach, we saw hills, a lot of buildings, and even a cow!

Afterwards, we got off the bus. The first activity we did was roller skating. It was so much fun!

Then, we rode our bicycles. However, one of my classmates didn't know how to do it well, so we taught her. We also played on an obstacle course. It was hard, but we passed it.

Around twelve o'clock, we went to a café and had lunch. Some of us ate sandwiches, and some of us ate rice dumplings. The food was delicious.

Last but not least, the most memorable part was that I could spend the picnic with my classmates because it was very fun.

My school picnic

The Tuesday before last, I went to Pak Tam Chung Holiday Camp for my school picnic. It was a sunny day. We went there by coach. When we were on our way, my classmates and I were very excited for the journey.

When we arrived at Pak Tam Chung Holiday Camp, I was so shocked due to how large that place was. First, we went to play basketball. I nearly played two hours of basketball. Then, we tried archery because we had never played that before. The coach told us how painful when you hit someone with an arrow and told us some safety rules of playing archery. Each of us got two arrows. In the first try, I shot badly because I did not have enough power. For the final chance, I shot perfectly at the middle of the archery targets. I was proud! In the middle of the journey. I ate some delicious sandwiches that Mum made for me. Since I was very hungry, I ate them all! After I finished my meal, we continued playing. We wanted to ride a bicycle. The bicycle ride was very fun! We rode up the hill and down the road. After twenty minutes, we wanted to do something else. Therefore, we played another activity. When we were walking, we saw someone playing badminton. Therefore, we decided to play badminton. It was so hard. I couldn't even hit the ball. After a long time, I could finally hit the ball perfectly! I was very happy!

In the end, I felt very tired but I ended up happily. When we went back to school, I almost fell asleep. I would like to have another picnic like this because we can play together with some exciting facilities. I want to go to another place like Pak Tam Chung! What an unforgettable school picnic that was!

My school picnic

Last Tuesday, it was a sunny day. We had a school picnic at the Pak Tam Chung Holiday Camp Site. Our classmates and I took the coach there. We felt thrilled.

The Pak Tam Chung Holiday Campsite offers a range of activities and facilities. Initially, I rode a bicycle. Then, I experienced the roller skating activity. Finally, I climbed on the rope net. I felt excited.

During lunch time, I had ham and egg sandwiches. Cherrie and I played roller skating. She didn't know how to do it properly in the beginning. I taught her and helped her by holding her hand. It was memorable.

The picnic ended with our free playtime. I felt delighted at the end of the day. I like to have another picnic like this because we had many unforgettable moments.

My Journey To Kyushu

This summer holiday, I travelled to Japan with my family and aunties. We visited two cities in Kyushu: Fukuoka and Kumamoto.

We ate a lot of delicious dishes including grilled beef, soft ice-cream and udon. We also went sightseeing. We had been to the beaches, outlets and playgrounds.

My auntie won a big toy Usagi for me in a class game shop. Besides, I bought a toy Kumamon in a souvenir shop. Therefore, I had two new friends in this trip. They were very cute!

This journey was so unforgettable and I looked forward to my next trip to Japan!
