

My Summer Holiday

This summer vacation, I had a unique experience filled with relaxation and new discoveries.

In early August, my mom took me, my uncle, and my cousin's family on a summer trip. Our itinerary was clear and rich. The first stop was Hechi Guang Xi, followed by Kunming, Dali, and Stone Forest in Yunnan. At the end of the trip, we returned to grandma's home.

Many sights during the trip left a deep impression on me. When I walked into the large wine storage cave in Hechi Guangxi. A strong aroma of wine hit me as soon as I stepped in, making me feel slightly tipsy instantly. The mysterious karst caves and beautiful mountains and rivers were even more amazing, and I was deeply shocked by the uncanny craftsmanship of nature. In Yunnan, we also visited Asia's largest wholesale flower market, which was full of brilliant colors - especially my favorite hydrangeas. The whole market was like an overturned paint palette. Of course, we didn't miss out on the food either. The local specialty flower cakes and mushroom hotpot tasted particularly delicious.

After the trip, we enjoyed time at grandma's in Beihai Guangxi. The nearby beach (a coastal city) was our paradise - we often played in the sand, with clear seawater. Local sweet soup and barbecue were my favorites, every bite full of happiness.

This summer was unforgettable and joyful. I saw different sceneries and learned to care more about others. With family and my lovely cousin, I hated the trip ending and looked forward to the next vacation.

My Summer Holiday

One day, I go to Ocean Park with my dearest family. First, we meet two fat but adorable giant pandas "Jia Jia" and "De De". They are in black and white.

After that, we visit a grand aquarium. There are many colourful fish, dangerous sharks and tiny seahorses. They are interesting.

Later, we feel tired and the sun is shiny, so we sit down on a shaded bench and drink some iced water. My mother buys me a yummy ice cream. After that we keep on moving to the peach by riding a round-shaped cable car. We visit cute penguins, smart seals and elegant artic foxes at the peach. I feel so close to the animals.

In the end, we go shopping in a souvenir shop. I use my pocket money to buy a lovely panda hat. We have a wonderful day in Ocean Park.

My Summer Holiday

In this summer holiday, I join the track and field training exchange trip with my classmates and teachers.

First, we go to Chengdu, Sichuan by plane. Then we attend the training in the China Athletics Association National Team Center. In there, we are so lucky because we meet outstanding national athletes. They teach us some useful skills.

After that, we have some funny activities in day 3. One of my favourite activities is go sightseeing, especially the Panda Breeding Base, because I can see so many big and baby pandas. They are so cute and I can take a photo with them.

Lastly, we attend a two-day training program. I am happy for this unforgettable trip. I can not only learn track and field skills, but also learn the culture in Sichuan.

My Summer Holiday

During the summer holiday, I went to Guangzhou for swimming training. On the first day, I took a three-hour bus to Guangzhou.

When I arrived, I saw a very big swimming pool and I was happy. However, the water in the pool was very cold. When I jumped in, my body kept shaking. I swam as hard as I could to keep warm. As a result, I swam faster than everyone.

The swimming training was very tough. I had to wake up early every day and eat a lot of vegetables. However, this training helped me make great progress in swimming and I was very happy.

My Summer Holiday

I had an unforgettable trip in Singapore in summer holiday.

I went to Singapore for 6 days with my family. The lasting impression was the "Night Safari"!

It was the first time my family came here. When we arrived, we watched an animal show. It had owls, wild bears and many other animals. It was so attractive for the following journey.

After that, we got on the train and had a ride around the Night Safari. We saw African painted dogs, Asiatic lions and many other rare animals. They were so close to us!

After riding on the train, we looked at the map and found that there were 4 routes for tourists to go through the whole safari. Of course, we wanted to watch all animals, so we started to explore. We saw the sloth bears, gharials, giant anteaters, fishing cats, cloud leopards and many other animals! It was scary when we heard the sounds but cannot see them in the dark area. It was quite exciting that we walked for over 2 hours until 11:00 p.m.

It was a tiring but amazing trip. I felt so joyful because I went to this trip.
