

My favourite toy

I have many toys, but my favourite is my remote-control bus. It was a gift from my grandmother, and was given to me on my birthday.

It is a red KMB double-decker bus. This is bus number 328, heading towards Tsuen Wan. The bus headlights can make in white light, and it can be remotely controlled to move forward, backward, and rotate.

I play with it after school. It makes me feel happy and relaxed. This is my favourite toy. What is yours?

My favourite toy is Space dog. This is the birthday gift from my dad. I like it very much.

My Space dog is cool and fun. It is a remote-controlled robot. Space dog has eight wheels. The wheels can move forwards and backwards, and also go up and down when I start pressing the remote.

I usually go to the park to play with it after I do all my homework on every day. I feel very joyful and very excited when I play with it.
