An Unforgettable Easter Holiday

Last Friday, I went to Zhuhai with my family. The sun shone brightly and the clouds were white. It was such a beautiful sunny day.

First, I took a ferry to Zhuhai. Then, Mum bought me a snack. It tasted yummy! After that, we checked in a hot spring hotel. The hotel staff gave us a free ice cream. Next, we played a football game machine. It was fun but tiring. At night, we had a delicious buffet and enjoyed a hot spring.

The next day, Dad paid for the claw machine. It was very hard to catch a doll because the claw was so loose. Finally, I caught a Kirby doll! It was so cute and I love it so much! Also, Mum bought me a spinning top. It I spin it very fast, it lights up.

In the end, we left the hotel and took the ferry back to Hong Kong. It was a wonderful and unforgettable holiday.

An Unforgettable Easter Holiday

This year, my mum and my friends' mums planned an unforgettable day for my friends and I during the Easter Holiday.

First, we went to a restaurant for lunch, but it wasn't an ordinary restaurant. It was a MTR-themed restaurant. When we were full, I took my "Super Mario Game" out of my bag and let one of my friends played it. The game ended, but he didn't want to finish, and he lost temper in the restaurant! How embarrassing!

After lunch, we went to watch a film named "Hoppers". It was so exciting that another friend dropped half a box of popcorns. Then, we went to a Science Museum and I met my classmate there. We played together for a while.

At night, we went to have a dinner buffet. The food was delicious. I ate many king's crab legs.

I am so happy on this day and I will never forget it.

An Unforgettable Easter Holiday

This Easter Holiday was the best because I went to Seoul to join the Zenith club ice hockey competition. I was so excited for days. I packed my helmet, gloves, skates and my orange jersey. On the plane I kept practicing skating moves in my head.

When we got there, I found that the rink in Seoul was huge and very bright. Our team warmed up together and practiced passing the puck. The other teams were strong, but I tried my best.

In the first game, I got the puck and saw a small chance. I skated fast and shot the puck into the net! I could not believe I scored a goal in such an important competition. I felt proud and happy.

Even when we were tired, we helped each other. Finally, our team got the third place of the game. After the games, we explored Seoul a little. I tried Kimchi and walked around the city. The city looked beautiful at night.

When we got home, I kept my medal on my desk. Learned that teamwork, practice and courage are very important. This Easter Holiday will always be unforgettable because I played ice hockey in Seoul and scored my first big goal.

An Unforgettable Easter Holiday

During the Easter holiday, the first few days were raining, but today, we could finally go out to the beach because it was sunny.

When we arrived at the beach, we were surprised that there were fewer people than before. Some were dancing, some were taking photos with "V" pose and some were playing volleyball.

My dad took me and my little brother to catch crabs from the rocky side of the beach. I caught a medium sized crab and a little baby crab. At last, me and my dad released the crabs from our bucket.

Finally, going to the beach was the most unforgettable moment of the Easter holiday. I am so happy and excited about it!

An Unforgettable Easter Holiday

In the afternoon on 11th April, 2026, my school had a show at Metro City Plaza 3. We sang a theme song for promoting the Constitution and the Basic Law "Wings" there. It was special for me because this is the first time I had a performance with my schoolmates in a shopping mall.

When we stood on the stage, we felt nervous and excited. I found my mum and she gave me a thumbs-up when we were singing the song. After the song, all the audience clapped their hands. We felt joyful.

I ran to my mum after the show. She gave me a hug and said, "You sang very well". I replied, "Thank you for your encouragement".

Today was a special day and it was unforgettable for me because I promoted a very meaningful song to the public on behalf of my school. The little performance was filled with my love for my country and Hong Kong.
