

My school picnic

I want to share some experience about my school picnic. Last Tuesday, my classmates and I had a picnic in Pak Tam Chung Holiday Camp.

Frist, we went to the archery area.

I didn't try the game

there. I was sad. After that, we ate some food in the football pitch.

I liked playing games with my friends, Ryan and Rita. We had a wonderful time!

My Summer Holiday

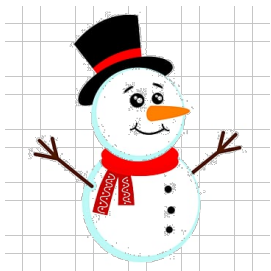

Last week, I was having an enjoyable and wonderful 3-day trip with my family in Zhuhai.

We live in a fantasy hotel with several facilities which are fun.

First, we went ice skating. My sister sat on a penguin ride, while I pushed my sister at the back because I am good at ice skating. After that, we held hands and went ice skating together. We had a joyful moment there.

Then, we went to an indoor room with falling snow. The view was so gorgeous that the decoration, including the snowman I also built a snowman with my sister. I added a red scarf to him, and it was so lovely, so we took photos together. I was so delighted as there are also slides built in the snow and we played several times there.

On the first night, we enjoyed a delicious buffet dinner that featured a wide variety of food including spaghetti with corn, sushi, steamed fish, and a selection of desserts. I particularly love the cakes and marshmallows dipped in the chocolate fountain, so I always make sure to get some whenever I go back for food. They are tasty and sweet. When I look

outside, I saw a rainbow-colored fountain with water shooting high into the air, and it was truly incredible.

The following morning, my sister suggested the playhouse. We played on slides that connected to a ball pool, which was thrilling. We also played hide-and-seek. Additionally, there was a VR playroom that caught my interest. I wore VR glasses and played simulated driving and shooting games, which were so exciting that I couldn't wait to go back!

Later that night, we had been looking forward to for a long-time coconut chicken hot pot and clay pot rice. It was delicious, and the chicken was very tender. We felt very full and satisfied after the meal.

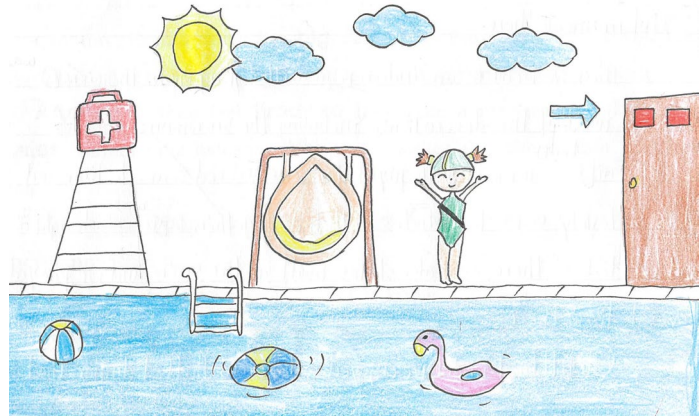

After resting, we went to the hotel swimming pool for a mini-swimming competition between my sister and me. Our mom and dad cheered us on. It was so exciting and I won the competition at the end! We enjoyed the beautiful scenic view, which included buildings beautifully illuminated outside the window. We were tired after swimming and we returned to our room to rest.

On the third day, we visited the famous shopping center, which is so large that we walked for two hours! There were claw machines there, and my mom is really good at them she helped me win many lovely dolls. I was also happy to win one by myself.

After that, we walked to Pop Mart, where I bought

two mystery boxes with my sister. There are many cute characters in different colors. I finally got the blue one, and my sister got the purple one, which is my favorite color. They are really adorable!

This trip was wonderful. I enjoyed both the views and the activities. I would love to visit Zhuhai again.

My Summer Holiday

On 27th July, my family takes me to Hong Kong Disneyland to celebrate my sister's birthday.

At first, when I go in, I see a huge and beautiful castle. It is a little different, because it is Disneyland's 20th Anniversary.

When I hear it, I am excited and I can't wait to go on so many cool and fun rides, but before we go on the rides, we watch a show, it is called Mickey and the Wondrous Book. First, we play Ant-Man and The Wasp: Nano Battle.

But my favourite ride is an exciting rollercoaster, it is called the Big Grizzly Mountain Runaway Mine Cars. We also take a photo by a Mickey mouse head shape, it is gold.

In the end, we watched fireworks, it is really beautiful.

Later the firework is finished, we walk to the MTR station. I tell my mom that I want to go to Disneyland again. What a fun day!

My Summer Holiday

On the third day of my trip in Fukuoka with my parents, we went to Ohori Park in the morning. When we walked into the park, we saw a big lake with many trees and stones around. There were a lot of turtles, ducks and different birds over there. Some of them were swimming happily and cozily. People with kids chose to row swan boats on the lake, which I think it's a beautiful landscape.

After that, we visited the Fukuoka Art Museum which was inside the park. How lucky we were because there was a Hello Kitty exhibition at the moment. After we went into the gallery, we saw and knew a lot about the history and development of the character, Hello Kitty. We felt excited to appreciate a lot of collections, artworks and products of Hello Kitty. One interesting fact about Hello Kitty is that she was born in 1974. She is over 50 years old now! I was so shocked about it.

In the end of the visit, we dined in a Japanese style café. The candy-shaped rice balls were delicious and Japanese tea was refreshing but my mother thought the taster of matcha was rich.

With the natural scenery, comfortable breeze and the tasty delicacy, we spent a wonderful and relaxing

day in Fukuoka, Japan!

Draw pictures or stick a photo here. (Optional)

My trip to Shanghai

In the summer holiday, not only my family and I went to Fukuoka, we also went to Shanghai from the twenty-eighth of July to the first of August.

On the first day at night, we ate hotpot but my mum thought it was too oily. On the third day, it rained heavily in the morning so we went to the Global Area Centre to go shopping. We also met my aunt and gathered lunch there with her too.

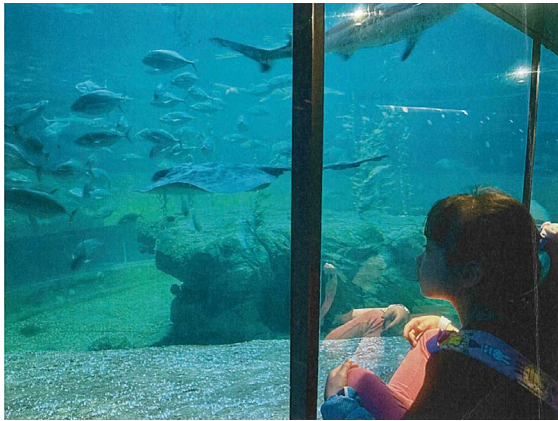

On the fourth day, the typhoon "Zhujiacao" blew Shanghai so it started raining heavily. My dad and mum wanted me to be safe so they sent me to my great-aunt's home for two days. If you have opportunities to go to Shanghai, don't forget to try hotpot in the Baheli Hotpot Restaurant and the Shanghainese cuisine in "Grandma's Gourmet" restaurant there. See you!

My Summer Holiday

On the first of July, I go to Ocean Park with my dad in the morning. First, we ride on the cable car. We see beautiful views and we take many photos. Then, we ride on the roller coaster, it is exciting so I scream loudly. We play four times. After that, we visit the Aquarium, where we

see different sea animals, such as sharks, sea turtles and sea lions. We also watch the dolphin show, they jump out of the water. I take many photos of them. They are amazing.

At night, I have a dinner buffet in Regent Hotel with my family. We eat many delicious foods, such as seafood, some beef, two cupcakes and mango pudding. I am full. Finally, we watch night views of the Victoria Harbour and go home together.

It is an unforgettable day, I want to go to Ocean Park and have the dinner buffet with my friends next time!

My School Picnic

I want to share about my school picnic. I was with Hevis. It was special because I could play a lot of games. In some of the games, I saw my old classmates. Back then, I saw an ant get into an ant nest. I told my friends and they also looked at the nest. Once, I played some games like tag and the bow. When I was at the archery area, I saw a bee! I quickly froze, then let Hevis look at my back because I thought it was on my back. It was awesome! I hope we can go there again and see my classmates.

My Summer Holiday

I travel to Sanya with my family. We go to the beach to go wake surfing.

First, I get on a boat. An instructor gives me a life jacket and a board. Then I get into the sea and hold the rope. The boat starts to go when I hold the rope tight. After that I slowly stand up. I am very scared and I cry. However, the instructor and my mom encourage me. I let go of the rope. I surf on the wave successfully! I feel like I'm flying on the water. I am very excited! Finally, I surf for a longer time before I fall into the water.

Wake surfing is the most wonderful experience of my summer holiday. I learnt that we need to have the courage to try and never give up. I look forward to surfing again!
